Peter Sculthorpe Faber Music:

Peter Sculthorpe Graeme Skinner, 2015-10-01 Peter Sculthorpe who died in 2014 remains Australia's best known composer and is widely held to be the most important creative musical spirit the country has produced. Beautifully written and fastidiously researched, this authorised biography provides an insight into Sculthorpe's formative years, his quest for personal voice and his arrival through many creative friendships and collaborations at a place in the collective heart of the nation. It charts the realisation of a youthful vocation to become not merely a composer but an Australian composer. Graeme Skinner's biography is also a social history examining Sculthorpe's unique role in the creation of Australian musical modernism in the 1960s, an important era in Australia's cultural evolution.

Australia's Jindyworobak Composers David Symons, 2020-11-29 Australia's Jindyworobak Composers examines the music of a historically and artistically significant group of Australian composers active during the later post colonial period 1930s c 1960. These composers sought to establish a uniquely Australian identity through the evocation of the country's landscape and environment, including notably the use of Aboriginal elements or imagery in their music, texts, dramatic scenarios or programmes. Nevertheless, it must be observed that this word was originally adopted as a manifesto for an Australian literary movement and was for the most part only retrospectively applied by commentators rather than the composers themselves to art music that was seen to share similar aesthetic aims. Chapter One demonstrates to what extent a meaningful relationship may or may not be discernible between the artistic tenets of Jindyworobak writers and apparently likeminded composers. In doing so, it establishes the context for a full exploration of the music of Australian composers to whom Jindyworobak has come to be popularly applied. The following chapters explore the music of composers writing within the Jindyworobak period itself and finally the later twentieth century afterlife of Jindyworobakism. This will be of particular interest to scholars and researchers of Ethnomusicology, Australian Music and Music History.

Australian Music and Modernism, 1960-1975 Michael Hooper, 2019-10-31 Drawing on newly available archival material, key works and correspondence of the era, Australian Music and Modernism defines Australian Music as an idea that emerged through the lens of the modernist discourse of the 1960s and 70s. At the same time that the new Australian Music was distinctive of the nation, it was also thoroughly connected to practices from Europe and shaped by a new engagement with the music of Southeast Asia. This book examines the intersection of nationalism and modernism at this formative time. During the early stages of Australian Music, there was disagreement about what the idea itself ought to represent and indeed whether the idea ought to apply at all. Michael Hooper considers various perspectives offered by such composers as Peter Sculthorpe, Richard Meale and Nigel Butterley and analyzes some of the era's significant works to articulate a complex understanding of Australian Music at its inception.

The Sounds of Aurora Australis Beatrice Dalov, 2021-01-12 Entrenched until recently in Western aesthetics, Australian composers are now developing a functional cultural identity expressed through a distinctly nationalistic musical idiom. Its ongoing formation, inspired by Australia's

Aboriginal heritage and unique natural environment seeks to distance the nations artistic developments from the geographically remote Occidental regions and emphasize its native cultures Presently however mounting sociopolitical and ethical concerns surrounding the cultural borrowing between Indigenous and non Indigenous peoples are problematizing the developing nationalistic idiom as composers must determine whether the two groups share any legitimate connection beyond mere occupation of the same land given their tense post colonial history Musicologist Beatrice Dalov traces the formation of the Southern Lands cultural identity while simultaneously considering its complex relationship with the nations First Peoples She illuminates the origins influences and developments of Australian art music from colonization late eighteenth century to the present day interweaving the social cultural political and economic forces that shaped and often determined its evolution The history demonstrates that the complex processes of articulating a unique cultural identity began almost immediately after arrival of the first colonists and continues uninterrupted through today Drawing on newly available archival material key works and personally conducted interviews with numerous contemporary composers Dalov traces the history of the lands music from scattered convict settlements and eventful contacts with Aboriginal peoples to the formation of a national musical infrastructure to todays thriving musical independence She brings forward not only the most prominent composers and musicians of the last century but also those who laid a crucial foundation and offered the first contributions toward a national idiom A comprehensive history of the music of the Great Southern Land has been too long neglected by social historians and musicologists worldwide Beatrice Dalov sets the record straight Peter Sculthorpe Faber Music Limited,1979 Diversity in Australia's Music Dorottya Fabian,John Napier,2018-10-30 This volume showcases academic research into the rich diversity of music in Australia from colonial times to the present Starting with an overview of developments during the past 50 years the contributions discuss Western and non western genres opera film dance choral chamber the history of music making in particular cosmopolitan and regional centres Canberra Brisbane the Hunter Valley Alice Springs old new and experimental compositions and a variety of performers and ensembles active at particular points in time In addition cultural tropes and music as social practice are also explored providing a rich tapestry of music and music making in the country The volume thus serves as a model for representing and approaching multicultural musical societies in an inclusive and comprehensive manner
