Plato's Economics David Reisman, 2021-01-29 Plato was the first of the great thinkers to integrate the economy into a wide ranging synthesis of ethical absolutes and human interaction In this original and stimulating book David Reisman assesses his influential contribution to the political economy of production consumption distribution and exchange

Resources in Education ,1992-04 Kognition bei Menschen und Tieren Tobias Starzak, 2014-12-11 Warum erfinden Tiere keine Computer und warum fliegen sie nicht zum Mond Die philosophische Auseinandersetzung mit Tieren ist von jeher durch die Suche nach einer anthropologischen Differenz motiviert von der man sich erhofft etwas über die Natur des Menschen zu erfahren Dabei ist die technologische Entwicklung des Menschen der vielleicht augenfälligste Unterschied zu allen nicht menschlichen Tieren Bei genauerer Betrachtung basiert die Fügigkeit des Menschen Innovationen hervorzubringen jedoch nicht auf der Erfindungsgabe einzelner sondern ist vielmehr das Ergebnis kumulativer kultureller Evolution eines Prozesses in dem Innovationen einzelner von der sozialen Gruppe konserviert und so zu einem späteren Zeitpunkt Ausgangspunkt weiterer Innovationen in Form von Verbesserungen werden können Aber warum gibt es bei Tieren keine kulturelle Evolution In diesem Buch werden Rationalität soziales Lernen und Kooperation die Grundlagen kultureller Evolution aus einer vergleichenden philosophischen Perspektive unter die Lupe genommen Dabei wird die Sicht entwickelt dass der Anschein einer anthropologischen Differenz durch die Summe vieler kleiner Unterschiede hervorgerufen wird und wir anderen Tieren ähnlicher sind als wir häufig glauben *The Economic Outlook for ...* ,1978 Retirement Income Security in the United States United States. irrationality Yet Steven Pinker shows that this is an illusion a symptom of historical amnesia and statistical fallacies If you follow the trendlines rather than the headlines you discover that our lives have become longer healthier safer happier more peaceful more stimulating and more prosperous not just in the West but worldwide Such progress is no accident it s the gift of a coherent and inspiring value system that many of us embrace without even realizing it These are the values of the Enlightenment of reason science humanism and progress The challenges we face today are formidable including inequality climate change Artificial Intelligence and nuclear weapons But the way to deal with them is not to sink into despair or try to lurch back to a mythical idyllic past it s to treat them as problems we can solve as we have solved other problems in the past In making the case for an Enlightenment newly recharged for the 21st century Pinker shows how we can use our faculties of reason and sympathy to solve the problems that inevitably come with being products of evolution in an indifferent universe We will never have a perfect world but defying the chorus of fatalism and reaction we can continue to make it a better one

Earth-honoring Faith Larry L. Rasmussen,2015-04-01 Grand Winner of the 2014 Nautilus Book Awards Thoughtful observers agree that the planetary crisis we now face climate change species extinction the destruction of entire ecosystems the urgent need for a more just economic political order is pushing human civilization to a radical turning point change or perish But precisely how to change remains an open question In Earth honoring Faith Larry Rasmussen answers that question with a dramatically new way of thinking about human society ethics and the ongoing health of our planet Rejecting the modern assumption that morality applies to human society alone Rasmussen insists that we must derive a spiritual and ecological ethic that accounts for the well being of all creation as well as the primal elements upon which it depends earth air fire water and sunlight He argues that good science necessary as it is will not be enough to inspire fundamental change We must draw on religious resources as well to make the difficult transition from an industrial technological age obsessed with consumption to an ecological age that restores wise stewardship of all life Earth honoring Faith advocates an alliance of spirituality and ecology in which the material requirements for planetary life are reconciled with deep traditions of spirituality across religions traditions that include mysticism sacramentalism prophetic practices asceticism and the cultivation of wisdom It is these shared spiritual practices that can produce a chorus of world faiths to counter the consumerism utilitarianism alienation oppression and folly that have pushed us to the brink Written with passionate commitment and deep insight Earth honoring Faith reminds us that we must live in the present with the knowledge that the eyes of future generations will look back at us
