O'Neill,2010-11 A collection of essays that discuss the writings of Carole Pateman with emphasis on her theories of democracy and feminism Provided by publisher      [A History of Medieval Political Thought](#) Joseph Canning,2014-02-04 First Published in 2005 The book covers four periods each with a different focus From 300 to 750 Canning examines Christian ideas of rulership The often neglected centuries from 750 to 1050 the Carolingian period and its aftermath are given special attention From 1050 to 1290 the conflict between temporal and spiritual power and the revived legacy of antiquity comes to the fore Finally in the period from 1290 to 1450 Canning focuses on the confrontation with political reality in ideas of church and state and in juristic thought      [Herder's Political Thought](#) Vicki A. Spencer,2012-04-28 Johann Gottfried Herder was a philosopher and important intellectual presence in eighteenth century Germany Herder s Political Thought examines the work of this significant figure in the context of both historical and contemporary developments in political philosophy Vicki A Spencer reveals Herder as one of the first Western philosophers to grapple seriously with cultural diversity without abandoning a commitment to universal values and the first to make language and culture an issue of justice As Spencer argues both have made Herder a source of inspiration for the pluralist turn of contemporary political philosophy Contending that in an era of globalization it is no longer possible to ignore Herder s crucial insights on the relationship between cultural membership and individual identity Spencer demonstrates how these ideas can help us understand and perhaps resolve the linguistic and cultural political struggles of our times      **Western Political Thought** Robert Eccleshall,Michael Kenny,1995 This is a guide to the vast amount of literature on the history of political thought which has appeared in English since 1945 The editors provide an annotation of the content of many entries and where appropriate indicate their significance controversial nature and readability      **Brill's Companion to the Legacy of Greek Political Thought** ,2024-09-23 A wealth of political literature has survived from Greek antiquity from political theory by Plato and Aristotle to the variety of prose and verse texts that more broadly demonstrate political thinking However despite the extent of this legacy it can be surprisingly hard to say how ancient Greek political thought makes its influence felt or whether this influence has been sustained across the centuries This volume includes a range of disciplinary responses to issues surrounding the legacy of Greek political thought exploring the ways in which political thinking has evolved from antiquity to the present day
