Power And Ideology In Education:

Power and Ideology in Education Jerome Karabel, A.H. Halsey, 1977 **The Politics of Education Policy in an Era of Inequality** Sonya Douglass, Janelle T. Scott, Gary L. Anderson, 2018-12-07 In a context of increased politicization led by state and federal policymakers corporate reformers and for profit educational organizations *The Politics of Education Policy in an Era of Inequality* explores a new vision for leading schools grounded in culturally relevant advocacy and social justice theories This timely volume tackles the origins and implications of growing accountability for educational leaders and reconsiders the role that educational leaders should and can play in education policy and political processes This book provides a critical perspective and analysis of today's education policy landscape and leadership practice explores the challenges and opportunities associated with teaching in and leading schools and examines the structural political and cultural interactions among school principals district leaders and state and federal policy actors An important resource for practicing and aspiring leaders *The Politics of Education Policy in an Era of Inequality* shares a theoretical framework and strategies for building bridges between education researchers practitioners and policymakers **Ideologies in Educational Administration and Leadership** Eugenie A. Samier, 2016-04-28 *Ideologies in Educational Administration and Leadership* explores ideological dimensions of educational administration in a number of Western and Central European contexts as they influence or shape the understanding analysis and practice in the field covering a broad range of topics such as ethics governance diversity and power The first section Philosophical and Theoretical Foundations includes a range of sociological political and linguistic approaches to examining ideology in an educational context The second section Ideologies of Research and Teaching includes examinations of neoliberal and technological effects on research and teaching as well as ideological shifts and challenges in the West and in Eastern Europe The last section Contemporary and International Issues includes critiques of social media neoliberal impact on schooling managerial leadership university ideologies in Finland the rationalisation of universities and the impact of administrative ideologies on school systems The book will appeal to researchers practitioners policy makers academics as well as post graduates in educational administration theory and related courses in the ethics and politics of education educational leadership and organisational studies *Ideology, Culture & the Process of Schooling* Henry A. Giroux, 1984-10 This book lays bare the ideological and political character of the positivist rationality that has been the primary theoretical underpinning of educational research in the United States These assumptions have expressed themselves in the form and content of curriculum classroom social relations classroom cultural artifacts and the experiences and beliefs of teachers and students Have existing radical critiques provided the theoretical building blocks for a new theory of pedagogy The author attempts to move beyond the abstract negative characteristics of many radical critiques which are often based on false dualisms that fail to link structure and intentionality content and process ideology and hegemony etc He also is critical of the over determined models of socialization and the abstract

celebration of subjectivity that underlies much of the false utopianism of many radical perspectives Professor Giroux begins to lay the theoretical groundwork for developing a radical pedagogy that connects critical theory with the need for social action in the interest of individual freedom and social reconstruction Author note Henry A Giroux is Assistant Professor of Education at Boston University He is the co editor of Curriculum and Instruction Alternatives in Education and The Hidden Curriculum and Moral Education

The Politics of Educational Decentralisation in Indonesia Irsyad

Zamjani,2021-12-10 The Politics of Educational Decentralisation in Indonesia A Quest for Legitimacy is a well written analytically sharp and compelling study of educational decentralisation in Indonesia Irsyad Zamjani provides fresh insights into this important topic The author treats educational reform as a window into much deeper questions about power the government s responsibility to its citizens and social change in Indonesia His findings should interest academics as well as practitioners with an interest in educational reform Professor Christopher Bjork Vassar College New York This is a remarkable book which should appeal not only to Indonesian scholars but also to educationists and political scientists to name just a few By tracing the path of decentralisation in the Indonesian educational reform in the early 2000s Zamjani shows how the central and municipal governments struggled in different ways to retain control over education in their domains through various mechanisms largely related to claims of legitimacy The study is grounded in new institutional theory and the interview and case study data provide a richness and depth in showing the dynamics of reform attempts Professor Lawrence J Saha Australian National University Canberra This book discusses the dynamics of educational decentralisation in post reform Indonesia Taking sociology s new institutionalism approach and drawing upon data from documents and interviews with strategic informants the book investigates how institutional legitimacy of educational decentralisation was garnered manipulated and then contested Besides analysing global institutional pressures which influenced the national adoption of decentralisation reform and the central government s attempts to restore its legitimacy the book also offers comparative case studies of education governance in two local districts to highlight how this reform is responded to at the local level

Systems of Reason and the Politics of Schooling Miguel Pereyra,Barry Franklin,2014-06-27

The 1980s were an important decade for educational inquiry It was the moment of the linguistic turn with its emphasis on the role of language as a constructor of reality a structuring agent for institutions such as schools and a medium for translating knowledge into elements of power for processes of social regulation Drawing on the work and insights of educational researcher Thomas S Popkewitz this book shows how the linguistic turn provided an alternative to both mainline educational research grounded in the ideals of political liberalism and the effort of neo Marxists to challenge liberal thinking in favor of a scholarship based on class conflict and economic determinism

Hochschule als Organisation Uwe

Wilkesmann,Christian Schmid,2012-05-19 Hochschulen sind im Wandel und befinden sich seit einigen Jahren auf dem Weg zu korporativen Akteuren Urspr nglich war der Modus ihrer Entscheidungsstrukturen zwischen Interessensorganisationen

und Arbeitsorganisationen angesiedelt Mittlerweile verschiebt sich dieser Modus immer mehr in Richtung Arbeitsorganisation Einige Universit ten werben sogar damit eine unternehmerische Hochschule zu sein Dieser Wandel beeinflusst sowohl ihre Organisationsidentit t ihre internen Steuerungsoptionen und mechanismen als auch die Produktionsebene von Forschung und Lehre sowie externe Netzwerke Es gab und gibt in der j ngsten Zeit einige empirische Forschungsprojekte die den Wandel der Universit ten in Richtung Organisation in den Blick genommen haben Die Ergebnisse sollen in diesem Sammelband dokumentiert werden

Inclusive Education, Politics and Policymaking Anastasia Liasidou, 2012-02-23 *Government, Policy, and Ideology* Keiko Yokoyama, 2009-11-16 Government Policy and Ideology analyzes the transformation of the university systems of England and Japan from the early 1980s with particular reference to the changing modalities of university autonomy and the power relationships between central authorities the universities and the market The analysis compares the various policy positions of the relevant stakeholders in the two countries highlighting the ideologies of neo liberalism university autonomy and new managerialism These ideologies coexist in both the English and the Japanese university systems However the interpretations of these ideologies made by stakeholders the patterns of the interrelations between them and their contextualization as elements in the policy and stance of each stakeholder differ between England and Japan The book argues that convergence between the English and Japanese university systems is to a large extent explained in the transformation of the university system in England during the 1980s and the continuity of the Ministerial jurisdictional mechanism in Japan

English as Medium of Instruction in Japanese Higher Education Glenn Toh, 2016-09-17 This book sets out to uncover and discuss the curricular pedagogical as well as cultural political issues relating to ideological contradictions inherent in the adoption of English as medium of instruction in Japanese education Situating the Japanese adoption of EMI in contradicting discourses of outward globalization and inward Japaneseness the book critiques the current trend in which EMI merely serves as an ornamental and promotional function rather than a robust educational intervention

The Routledge Companion to English Studies Constant Leung, Brian V Street, 2014-03-14 English is now a global phenomenon no longer defined by fixed territorial cultural and social functions The Routledge Companion to English Studies provides an authoritative overview of the subject area Taking into account the changing conceptualisations of English this Companion considers both historical trajectories and contemporary perspectives whilst also showcasing the state of the art contributions made by the established scholars of the field The Routledge Companion to English Studies provides a set of broad perspectives on English as a subject of study and research highlights the importance of the link between English and other languages within the concepts of multilingualism and polylingualism investigates the use of language in communication through the medium of digital technology covering key issues such as Digital Literacies Multimodal Literacies and Games and Broadcast Language explores the role of English in education taking

account of social ethnographic and global perspectives on pedagogical issues This collection of thirty four newly commissioned articles provides a comprehensive and up to date picture of the dynamic and diverse field of English Studies and will be an invaluable text for advanced students and researchers in this area *Gender Diversity and Sexuality in English Language Education* Darío Luis Banegas, Navan Govender, 2022-08-11 Runner up British Association for Applied Linguistics BAAL Book Prize 2023 This book combines teaching informed research studies and research informed teaching accounts which explore English language education that engages with a gender and a sexual diversity Informed by critical theories critical literacy post structuralism queer theory and indigeneity de coloniality the critical perspectives in this volume consider gender and sexuality as dimensions of human life and aim to promote sexual gender emotional and relational wellbeing together with the construction of cultural horizons and citizenship The chapters are organised around three interdependent areas of inquiry 1 how educators design pedagogies and curriculums around gender diversity and sexuality 2 how students and teachers navigate issues of gender diversity and sexuality in practice as well as 3 how issues of gender diversity and sexuality are not addressed in the materials for teaching and learning English The contributors are all teacher educators researchers and therefore have vast experience in enacting implementing designing and examining the field of English language teacher education from for the classroom with a gender perspective in diverse settings with chapters come from Argentina Bangladesh Canada Germany Norway Poland Saudi Arabia South Africa Spain Taiwan Turkey the UK and Uruguay **Community Education for Social Justice** Cameron White, 2014-02-05 What is community How important is community in the 21st century Where might the idea of community fit in education and schooling teaching and learning These are the questions and themes embedded in this book The general critique is that community is an add on in our schools and often is dismissed as a result of the individualistic and competitive nature of schooling today Our focus is to provide critical investigations as to the possibility of community and that we need community now more than ever The concept of community education brings many ideas and issues to mind Related themes include place based field based environmental service learning and outdoor education Each has its own more narrow focus with community education perhaps an umbrella term than encompasses them all Nevertheless the suggestion here is that instead of community education serving as an extension or add on to traditional approaches it should be the focus of all education What is often missing in teaching and learning are contexts and connections that make education meaningful Community education engages participants in problem and issues based approaches to the local community thereby facilitating that local to global link Instead of compartmentalized subjects integrated approaches use what students and the community know or understand to develop further questions solutions or even problems Community education offers efficacy in that it provides opportunities for collaboration in addressing local issues and problems It enables the community to become the classroom thus ensuring a more long term connection to active rather than passive endeavors as citizens *Ideology and Curriculum* Michael W.

Apple, 2004 To celebrate the 25th anniversary of its publication Michael W Apple has thoroughly updated his influential text and written a new preface The new edition also includes an extended interview circa 2001 in which Apple relates the critical agenda outlined in *Ideology and Curriculum* to the more contemporary conservative climate Finally a new chapter titled *Pedagogy Patriotism and Democracy Ideology and Education After 9 11* is also included [The Tragic Vision of Politics](#)

Richard Ned Lebow, 2003-10-30 Is it possible to preserve national security through ethical policies Richard Ned Lebow seeks to show that ethics are actually essential to the national interest Recapturing the wisdom of classical realism through a close reading of the texts of Thucydides Clausewitz and Hans Morgenthau Lebow argues that unlike many modern realists classic realists saw close links between domestic and international politics and between interests and ethics Lebow uses this analysis to offer a powerful critique of post Cold War American foreign policy He also develops an ontological foundation for ethics and makes the case for an alternate ontology for social science based on Greek tragedy s understanding of life and politics This is a topical and accessible book written by a leading scholar in the field **Rethinking Higher Education and the Crisis of Legitimation in Europe**

Ourania Filippakou, 2022-08-29 Building on Ourania Filippakou s previous work on higher education in the fields of governance neoliberalism university entrepreneurialism and marketization institutional and social stratification *Rethinking Higher Education and the Crisis of Legitimation in Europe* contributes to the debate on higher education from a critical policy perspective Introducing new ideas on the relationships between the alleged pursuit of excellence in higher education and the ways in which both deploys and reflects how power is wielded in Europe and other neoliberal capitalist societies The term legitimation is here coined to emphasize how new coercive strategies political decisions and management styles have emerged in the age of excellence in higher education The book concludes with a more personal reflection on the neutrality of higher education and its illusory promises [Mainstreaming Black Power](#)

Henry A. Giroux, 2015-12-03 As the new administration moved beyond its first year in office Obama s politics of hope increasingly has been transformed into a politics of accommodation To many of his supporters his quest for pragmatism and realism has become a weakness rather than a strength By focusing on those areas where Obama grounded his own sense of possibility Giroux critically investigates the well being and future of young people including the necessity to overcome racial injustices the importance of abiding by the promise of a democracy to come and the indisputable value of education in democracy Giroux shows why considerations provide the ethical and political foundations for enabling hope to live up to its promises while making civic responsibility and education central to a
