Big Java Cay S. Horstmann, 2014-08-26 *Big Java Late Objects* is a comprehensive introduction to Java and computer programming which focuses on the principles of programming software engineering and effective learning. It is designed for a two semester first course in programming for computer science students. Using an innovative visual design that leads readers step by step through intricacies of Java programming, *Big Java Late Objects* instills confidence in beginning programmers and confidence leads to success.

Big Java Cay S. Horstmann, 2017-05-01 *Big Java Late Objects 2nd Edition* focuses on the essentials of effective learning and is suitable for a two semester introduction to programming sequence. This text requires no prior programming experience and only a modest amount of high school algebra. It provides an approachable introduction to fundamental programming techniques and design skills helping students master basic concepts and become competent coders. It takes a traditional route first stressing control structures, procedural decomposition, and array algorithms. Objects are used where appropriate in early sections of the text. Students begin designing and implementing their own classes in Section 9. The second half covers algorithms and data structures at a level suitable for beginning students. Choosing the enhanced eText format allows students to develop their coding skills using targeted progressive interactivities designed to integrate with the eText. All sections include built-in activities, open-ended review exercises, programming exercises, and projects to help students practice programming and build confidence. These activities go far beyond simplistic multiple choice questions and animations. They have been designed to guide students along a learning path for mastering the complexities of programming. Students demonstrate comprehension of programming structures then practice programming with simple steps in scaffolded settings and finally write complete, automatically graded programs. The perpetual access VitalSource Enhanced eText, when integrated with your school's learning management system, provides the capability to monitor student progress in VitalSource SCORECenter and track grades for homework or participation. Enhanced eText and interactive functionality are available through select vendors and may require LMS integration approval for SCORECenter.
