Cruising World ,1990-01 **The Design of Classic Yachts** Norman Skene,2012-04 This book from 1905 was intended to be a concise and practical presentation of the processes involved in designing a classic yacht of these times This handbook was thoroughly intended to be practical in character all mathematics and theoretical presentations having been eliminated as far as possible so that the operations may readily be grasped by men without technical education A special feature of this book is the series of curves for determining the proportions of sailing yachts of various sizes The different operations involved in designing a sailing yacht are illustrated in the text by work on the 30 foot water line sloop whose plans are given in full The complete data on this design is also given in the appendix

A Manual of Yacht and Boat Sailing Dixon Kemp,1878 **Boating** ,1976-07 *Cruising World* ,1982-07 *The Making of Tom Cat* William Garden,2004-12 You ll enjoy this part story part boatbuilding manual of a small beetle cat like boat from a legendary designer with probably more of his creations built than any other person You ll find out not only how the boat is built but also how the design came to be from someone with a long lifetime of fooling around with boats As told from Toad s Landing on an island off British Columbia it becomes quite apparent that whimsy and fun are not limited to young boys and girls The first thing you may notice about Tom Cat is the handsome cuddy The next thing to realize is she is constructed with a combination of the traditional plank on frame carvel and modern epoxy for the seams The result is a rugged boat which doesn t require the swelling of planks or the recaulking of seams in the years to come If you are just too pure a traditionalist for epoxy of course you can plank and caulk
