When China Rules The World Martin Jacques:

When China Rules The World Martin Jacques, 2012-03-29 China will replace the United States as the world's dominant power. In so doing it will not become more western but the world will become more Chinese. Jacques argues that we cannot understand China in western terms but only through its own history and culture. To this end he introduces a powerful set of ideas including China as a civilization state, the tributary system, the Chinese idea of race, a very different concept of the state and the principle of contested modernity. First published in 2009 to widespread critical acclaim and controversy, *When China Rules the World: The End of the Western World and the Rise of a New Global Order* has sold a quarter of a million copies, been translated into eleven languages, nominated for two major literary awards and has been the subject of an immensely popular TED talk. In the three years since the first edition was published, the book has transformed the debate about China worldwide and proved remarkably prescient. In this greatly expanded and fully updated paperback edition with nearly three hundred pages of new material backed up by the latest statistical data, Martin Jacques renews his assault on conventional thinking about China's ascendancy, showing how its impact will be as much political and cultural as economic, thereby transforming the world as we know it. Martin Jacques is one of Britain's foremost public intellectuals. A Visiting Senior Research Fellow at IDEAS, the London School of Economics centre for diplomacy and grand strategy, a Visiting Professor at Tsinghua University Beijing and a Fellow of the Transatlantic Academy, Washington DC, Martin Jacques is widely respected as a leading global expert on what could prove to be the most important geopolitical event of the past 200 years: the rise of China. He was editor of *Marxism Today* from 1977 until the journal's closure in 1991 and has also worked as deputy editor of *The Independent*. He has been a columnist for the *Times*, the *Guardian*, the *Observer* and the *New Statesman*, as well as writing for international publications such as the *Financial Times*, *Economist*, *New York Times*, *International Herald Tribune*, *Daily Beast*, *Volkskrant*, *Corriere della Sera*, *L'Unita*, *South China Morning Post* and *Folha Des Paulo*.

When China Rules the World Martin Jacques, 2009-11-12 Greatly revised and expanded with a new afterword, this update to Martin Jacques's global bestseller is an essential guide to understanding a world increasingly shaped by Chinese power. Soon China will rule the world. But in doing so it will not become more Western. Since the first publication of *When China Rules the World*, the landscape of world power has shifted dramatically. In the three years since the first edition was published, *When China Rules the World* has proved to be a remarkably prescient book transforming the nature of the debate on China. Now in this greatly expanded and fully updated edition boasting nearly 300 pages of new material and backed up by the latest statistical data, Martin Jacques renews his assault on conventional thinking about China's ascendancy, showing how its impact will be as much political and cultural as economic, changing the world as we know it. The Realities of Reality - Part IV: The Reality

Behind Achieving World Peace Fritz Dufour, MBA, DÉSS, 2020-04-05 This book is organized in seven chapters Chapter one looks at the origins and the causes of war The chapter argues that war is a consequence of how we as a species have evolved War has both endogenous and exogenous causes While the former depends on our biology and psychology the latter has to do primarily with international relations Chapter two makes the case for the paradoxical nature of war While war takes lives it is legitimate under certain circumstances For example armed humanitarian interventions are allowed to save lives among local populations at the expense of the oppressors by employing all necessary means ethical or not Chapter three asks if peace among nations is achievable which is the main theme of this book However it does not elaborate on the question entirely Instead it gives sort of a prelude of what will be discussed in the remaining of the book by talking about the concepts of world order and American hegemony arms race and peacebuilding Chapter four builds on three by looking at realism idealism and pacifism in international relations As to pacifism the chapter attempts to answer the question what was the most peaceful time in history Chapter five presents the elements of hope for world peace by considering the role played by the following 1 the United Nations 2 the North Atlantic Treaty Organization NATO 3 the Organization for Security and Cooperation in Europe OSCE 4 the non governmental organizations NGOs 5 the role of nuclear deterrence 6 globalization 7 transnationalism 8 diplomacy 9 sports 10 international cooperation in space exploration 11 the Nobel Prize and 12 the declining of war and violence in modern times On the other hand chapter six presents the opposite argument or the barriers to world peace using the following points 1 the proliferation of nuclear weapons 2 geoeconomics 3 terrorism 4 the global refugee crisis 5 the profitability of arms sales and 6 the profitability of wars It makes an interesting argument especially as to the profitability of wars by showing how the United States first emerged as an imperial and a world power in the 1890s then as the only world s superpower after World War II Finally chapter seven takes a proactive approach by peering into the future of armed conflict which is likely to take place in new environments Cyberspace the littoral choke points near space and increasingly in expanding cities or slums War The chapter concludes with a discussion on the Doomsday Clock a concept stemmed from the uncertainty as to the future of mankind because of armed conflicts and which is a symbol that represents the likelihood of a man made global catastrophe
