Transcultural Connections: Australia and China Greg McCarthy, Youzhong Sun, Xianlin Song, 2021-10-25 This book is a unique and original contribution to the knowledge of transcultural engagement between the East and the West notably between China and Australia The collection explores how the global system universally interrelates East and West showing how this interrelatedness offers the promise of progress but can evoke the counteracting trend of tribal nationalism The book addresses the connectedness of human progress by exploring how globalization creates new dynamic interfaces between East and West and how rather than clashes of culture there are growing forms of reciprocity between civilizations and a shared awareness of how humanity is connected through knowledge and international mobility Copyright Matters Lena Henningsen, 2010-01-01 literary reading of these derivative works and argues that imitation may at times be a creative tool While these two central arguments appear to be contradictory the author shows that they represent two sides of the same coin the emergence of a new self conception among Chinese authors as they struggle to recast their relationship with society and state Book Jacket Chinese Shock of the Anthropocene Kwai-Cheung Lo, Jessica Yeung, 2019-05-07 This book examines China s role and its cultural productions in the process of environmental destruction and transformation focusing on how various cultural media play a significant role in shaping and reproducing Chinese subject formation in relation to changing ecological conditions It argues that China under the leadership of Xi Jinping vowed in 2017 to play a leading role in preserving the planet for the future but many of its actions such as its Belt and Road initiative have aroused apprehension rather than inspired confidence Against this backdrop of environmental concern this volume brings together a cutting edge
