

The book cover features a central illustration of a young woman with dark, curly hair and a pale complexion, looking directly at the viewer with a somber expression. She is wearing a dark, high-collared garment with a red, ruffled or lace-like detail around the neckline. The background is dark and atmospheric, with faint, glowing light sources on the left and right sides, possibly candles. The entire scene is framed by a thick, ornate, golden-brown border. The text is overlaid on the central part of the image.

Welfare and vulnerability: Findings from the second round of the Myanmar Household Welfare Survey (April - June 2022) Myanmar Agriculture Policy Support Activity,2022-09-14 The second round of the Myanmar Household Welfare Survey MHWS a nationally and regionally representative phone survey was implemented between April and June 2022 It follows from a first round that was carried out between December 2021 and February 2022 This report discusses the findings from the second round related to shocks livelihoods coping strategies and food security We find that 19.6 percent of households reported security and climatic shocks in the three months prior to their interview Further there is an uptick in reported crime violence and insecurity across communities in the second round compared with the first Theft is also an important issue with 32 percent of households burglarized Fifty five percent of households report a lower income in the beginning of 2022 compared to 12 months earlier Eighty three percent of households use at least one coping strategy to meet daily needs during the month prior to the survey The three most common coping strategies are spending savings reducing nonfood expenditure and reducing food expenditure Seventeen percent of households have poor or borderline food consumption more than in round one R1 when the share was 9.4 percent This change is in part driven by a decrease in animal sourced food consumption from 5.0 days a week in R1 to 3.9 days a week in round two R2 Finally hunger is an issue for 40 percent of

households Regression analysis reveals that self reported community insecurity and climatic shocks are strongly associated with negative outcomes for income coping and food security Finally households in Kayah and Chin are the most vulnerable they report insecurity violence and crime in their communities and compared to the other states regions are more likely to have income loss poor food consumption and hunger *Queens and Chaos* Jonathon Mast ,2023-03-01 Madelyn is going to Fae The pirates are taking Madelyn to face the Queens of Fae themselves She needs to convince them to help But Fae is a dangerous place filled with strange challenges The disaster eats away at the realm Fae flee in all directions And Queens care only for themselves Madelyn will be pushed to her limits and beyond as she faces this newest challenge So Many Hungers!
