Objective Life Science (Plant Science) Kumar Prasann & Dwivedi Padmanabh, Objective Life Science Plant Science is an exclusive fundamental search based collection of multiple choice questions prepared for students mainly to help them revise consolidate and improve their knowledge and skills

Science, Agriculture and the Politics of Policy Ian Scoones, 2006 Science Agriculture and the Politics of Policy examines the intersections of globalisation technology and politics through a detailed empirically based examination of agricultural biotechnology in India The focus is on Bangalore and Karnataka a part of India which has seen a massive growth in biotech enterprises experimentation with GM cotton and a contested policy debate about the role biotechnology should play in economic development The book asks what does this new suite of technologies mean for society for politics and for the way agriculture food and rural livelihoods are thought about Can biotech deliver a second Green Revolution and so transform agriculture and rescue the countryside and its people from crisis and poverty Or is it more complex than this Through a detailed case study the aim of the book is to discuss question and refine these broader debates locating an understanding of biotechnology firmly within an understanding of society and politics

DARE/ICAR Annual Report India. Department of Agricultural Research and Education, 2013

Market Development for Genetically Modified Foods V. Santaniello, Robert E. Evenson, David Zilberman, 2002-03-06 The investment climate for firms producing genetically modified GM agricultural products has recently experienced considerable change with the occurrence of remarkably high rate of farmer acceptance but considerable consumer resistance The present system that involves firms developing biotech products farmers producing the products food and related agribusiness industrial firms and consumers of food is very volatile This however will soon be affected by changes in regulatory trade and food safety regimes This book addresses these key issues and is based on papers presented at the fourth meeting of The International Consortium on Agricultural Biotechnology Research ICABR on Economics of Agricultural Biotechnology held at Ravello Italy in August 2000 Organized in four parts this volume focuses on Consumer reactions to GM food information Regulatory issues Farmer acceptance of biotech
