International Conference on Materials, Architecture and Engineering Technology (ICMAET 2013) Fangli Zheng,2014-03-03 The main objective of ICMAET 2013 is to provide a platform for researchers engineers academicians as well as industrial professionals from all over the world to present their research results and development activities in Materials Architecture Agriculture Science Environment Engineering and Engineering Technology This conference provides opportunities for the delegates to exchange new ideas and experiences face to face to establish business or research relations and to find global partners for future collaboration ICMAET 2013 received over 350 submissions which were all reviewed by at least two reviewers As a result of our highly selective review process about 130 papers have been retained for inclusion in the ICMAET 2013 proceedings less than 40% of the submitted papers The program of ICMAET 2013 consists of invited sessions and technical workshops and discussions covering a wide range of topics This rich program provides all attendees with the opportunities to meet and interact with one another We hope your experience is a fruitful and long lasting one With your support and participation the conference will continue its success for a long time The conference is supported by many universities and research institutes Many professors play an important role in the successful holding of the conference so we would like to take this opportunity to express our sincere gratitude and highest respects to them They have worked very hard in reviewing papers and making valuable suggestions for the authors to improve their work We also would like to express our gratitude to the external reviewers for providing extra help in the review process and to the authors for contributing their research result to the conference Special thanks go to our publisher DEStech Publication *BBC licence fee settlement and annual report* Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee,2011-05-19 The Culture Media and Sport Committee says that the main outcomes of the BBC Trust s strategic review do not move the BBC on to the extent required by current circumstances and that the incoming Chairman will have

much to get grips with The new licence fee agreement was reached unexpectedly in October 2010 between the Department for Culture Media and Sport and the BBC but without any time for wider consultation with viewers or Parliament The Committee believes the agreement reached is a reasonable one but the process undermined confidence in both the Government s and the BBC s commitment to transparency and accountability On the partnership between BBC and S4C it is unclear how S4C can retain its independence under the new arrangements It is extraordinary that the Government and the BBC should agree such wide ranging changes without consultation or giving S4C any notice or say at all The Committee is particularly concerned that National Audit Office still does not have the promised access to conduct independent assessments of the BBC s value for money The Committee is also disappointed that banded information on talent salaries is still not in the public domain The BBC opened itself to predictable ridicule with the decision to hire a migration manager who had to commute from the United States to manage the transition to the new Salford site The report concludes that big questions remain over how radically the BBC needs to reconfigure both content and delivery in the years ahead

Sabine Pekarz, 2002-03-07 Inhaltsangabe Abstract This survey has shown that although the internet is full of information it is difficult to find the information required fast Before starting an internet survey it is essential to be conscious of the intention of the search and the expected results and to translate this into one or more keywords The intention of the keyword searches knowledge management and intellectual capital was to find out how the topic is treated on different pages The categorization by content has shown that a main part of the links can be assigned in the advertisement categories This is the case for both the hits of MetaCrawler and those of Umap A further community of the results of the two search instruments is that the categories knowledge base and best practices only take a small part whereas the categories content discussion and collection of resources are relatively well attended Great importance has been attached to the category content discussion in the index and chapter 6 is fully dedicated to interesting links concerning the content This is because the discussion of the topics combined with definitions and explanations is the background and the basis for the rest of the categories As the assignment to the category content discussion does not declare anything about the quality of the discussions the index in chapter 4 has to be included in the study Strictly speaking a great part of those links is dedicated to advertisement and gives some explanations concerning the topics It has been detected that most of the pages with content discussion give only a short introduction into the topic The pages that examine the topics more closely are an exception to the rule Five links of this minority are introduced in chapter 6 Two of them are very interesting pages concerning the content They are listed at top position because different opinions concerning knowledge management and intellectual capital are introduced the topics are

treated in great detail and the explanations are good and quite easy to duplicate In order to find out if the results are capable to represent the totality the reliability of the categorization built up with Umap artificial intelligence and that built by human intelligence have been analyzed with the means of hypotheses The test of the hypotheses that are based on a comparison of the results and processes of the categorizations has shown that the categorization by **Handbook of Accessible Achievement Tests for All Students** Stephen N.
