Planning and Design for Sustainable Urban Mobility Un-Habitat,2013-10-30 Urban transport systems worldwide are faced by a multitude of challenges Among the most visible of these are the traffic gridlocks experienced on city roads and highways all over the world The prescribed solution to transport problems in most cities has thus been to build more infrastructures for cars with a limited number of cities improving public transport systems in a sustainable manner However a number of challenges faced by urban transport systems such as greenhouse gas emissions noise and air pollution and road traffic accidents do not necessarily get solved by the construction of new infrastructure Planning and Design for Sustainable Urban Mobility argues that the development of sustainable urban transport systems requires a conceptual leap The purpose of transportation and mobility is to gain access to destinations activities services and goods Thus access is the ultimate objective of transportation As a result urban planning and design should focus on how to bring people and places together by creating cities that focus on accessibility rather than simply increasing the length of urban transport infrastructure or increasing the movement of people or goods Urban form and the functionality of the city are therefore a major focus of this report which highlights the importance of integrated land use and transport planning This new report of the United Nations Human Settlements Programme UN Habitat the world s leading authority on urban issues provides some thought provoking insights and policy recommendations on how to plan and design sustainable urban mobility systems The Global Report on Human Settlements is the most authoritative and up to date global assessment of human settlements conditions and trends Preceding issues of the report have addressed such topics as Cities in a Globalizing World The Challenge of Slums Financing Urban Shelter Enhancing Urban Safety and Security Planning Sustainable Cities and Cities and Climate Change Kenya Wetlands Atlas Monday S. Human Geography ,2010 **Human Geography** Jerome Donald Fellmann,2009 Human Geography Jerome Donald Fellmann,Audrey E. Clarke,Brian P. Holly,1998-08 *Human Geography* Mark D. Bjelland,Daniel R. Montello,2018-12 This thirteen edition of Human Geography retains the organization and structure of its earlier versions Like them it seeks to introduce its users to the scope and excitement of geography and its relevance to their daily lives and roles as informed citizens We recognize that for many students human geography may be their first or only work in geography and this their first or only textbook in the discipline For these students particularly we seek to convey the richness and breadth of human geography and to give insight into the nature and intellectual challenges of the field of geography itself Our goals are to be inclusive in content current in data and relevant in interpretations These goals are elusive Because of the time lapse between world events and the publication of a book events inevitably outpace analysis We therefore depend on a continuing partnership with classroom instructors to incorporate and interpret current events and emerging geographic patterns
