Human Resource Development is the ideal handbook for all professional trainers and provides core information needed by all professional students of this subject This new second edition has been fully updated and revised with the inclusion of three new chapters making this the most topical book in this field Design Development and Application of E learning Knowledge Management and Transfer and Human and Intellectual Capital Clearly structured with detailed sections covering each aspect of the training cycle the book also includes sections on The Role of Learning Training and Develo **Foundations of Human Resource Development** Elwood F. Holton, III,Richard A. Swanson,2011-01-22 Written by top researchers in the field of Human Resource Development Uses real world examples to make the research understandable Helps practitioners solve complex practical problems that need the application of existing or new research Sponsored by the Academy of Human Resource Development and the American Society for Training and Development How is it that some Human Resource Development HRD professionals consistently get the results that their organizations need while others regularly get lost in the process The Human Resource Development Research Handbook argues that expert HRD professionals think like researchers You don t need to be a researcher to obtain consistently high quality HRD results but thinking like a researcher gives you the discipline required to be an expert Thus the much hyped gap between theory and practice is the arena of opportunity and excellence The Human Resource Development Research Handbook gives practitioners the tools they need to stay on the leading edge of the profession It addresses three core areas The practical importance of research ways of doing practical research and getting started on research Written for practitioners and scholars this is the first book to explain the value purposes methods and processes of HRD research in clear simple language The Human Resource Development Research Handbook demystifies the research process so HRD practitioners can transform their practice to incorporate leading edge research Each chapter is written in straightforward language by a leading researcher Real world examples clearly show how research and theory are not just for academics but are practical tools to solve everyday problems This edition is in two volumes The second volume ISBN is 9781459614802
