## **I Warhammer 4plebs:**

**Online Othering** Karen Lumsden, Emily Harmer, 2019-04-23 This book explores the discrimination encountered and propagated by individuals in online environments. The editors develop the concept of online othering as a tool through which to analyse and make sense of the myriad toxic and harmful behaviours which are being created through or perpetuated via the use of communication technologies such as the internet, social media and the internet of things. The book problematises the dichotomy assumed between real and virtual spaces by exploring the construction of online abuse victims' experiences, resistance to online othering and the policing of interpersonal cyber crime. The relationship between various socio-political institutions and experiences of online hate speech are also explored. *Online Othering* explores the extent to which forms of information technologies facilitate, exacerbate and/or promote the enactment of traditional offline offences such as domestic abuse and stalking. It focuses on the construction and perpetration of online abuse through examples such as the far right, the alt right and Men's Rights Activists. It also explores experiences of and resistance to online abuse via examples such as victims' experiences of revenge porn, online abuse and misogyny, transphobia, disability hate crime and the ways in which online othering is intersectional. Finally, the collection addresses the role of the police and other agencies in terms of their interventions and the regulation and governance of virtual spaces. Contributions to the volume come from fields including sociology, communication and media studies, psychology, criminology, political studies, information science and gender studies. *Online Othering* is one of the very first collections to explore a multitude of abuses and their relationship to information and communication technology.
