1. Introduction

In the recent years, with the development of society, the high technology driven people's life and change the world. Ahuja 2011 explained that high technology innovation is one of the extremely important factors for the majority of the companies to acquire success in the competitive society. Even though high technology innovation changed the world and advanced the standard of human lifestyle, it is not enough for the development of society. The society needs a new innovation method to satisfied individuals' needs, design thinking is new approach to reach that and become more and more important for society (Brown, 2009). Thus, there are a large number of the design companies appeared to the global market, these firms are focus on design and develop products and make them to satisfied consumers' needs. IDEO is one of the successful product development companies, it established in 1978 and rename to IDEO in 1991. To be more specific, in 1978, David Kelley established the David Kelley Design, because he found that the most of technological companies are lacking product development departments. After 13 years, David Kelley Design combines with ID Two and Matrix Product Design formed new product development firm in 1991 and renamed IDEO. As one of the world's leading design firms, IDEO won a large number of awards than other product development firms. This company has a rapidly development in last several years, owned over 660 employees in the various disciplines, such as behavior science, electrical engineering and design research et al. (IDEO 2015). As a product development firm, IDEO help organizations in the public and private sectors to find new design approach to innovate and grow. Sutton et al. (1996) reported that IDEO as a successful design company, they helped at least 40 industries to innovate and over 3000 products to development. This essay will be analyzed its process, organization, management and culture, to explore the reason of its success.
