

Methods in Behavioral Research

The background of the cover is a photograph of a calm body of water. A series of dark, smooth, rounded stones are arranged in two parallel lines that recede into the distance, creating a strong sense of perspective. The water is a light, pale blue, and the sky above is a very light, hazy blue. The overall mood is serene and contemplative.

New Developments in Behavioral Research: Theory, Method and Application Barbara C. Etzel, Judith M. LeBlanc, Donald M. Baer, 2020-09-10 Originally published in 1977 these examples of research and scholarly argument were collected in honor of Professor Sidney W Bijou In the language of academics they constitute a Festschrift a festival of scholarly writing performed to celebrate the career of a person who produced and stimulated others to produce exactly such contributions throughout a long valuable and productive professional history Since 1955 Dr Bijou had worked almost exclusively within the approach variously labelled as the functional analysis of behavior the experimental analysis of behavior operant conditioning or Skinnerian psychology From his point of view it seems clear the first of these labels was the correct one It was the principle of objective direct observable analysis that attracted him *More Statistical and Methodological Myths and Urban Legends* Charles E. Lance, Robert J. Vandenberg, 2014-11-05 This book provides an up to date review of commonly undertaken methodological and statistical practices that are based partially in sound scientific rationale and partially in unfounded lore Some examples of these methodological urban legends are characterized by manuscript critiques such as a your self report measures suffer from common method bias b your item to subject ratios are too low c you can't generalize these findings to the real world or d your effect sizes are too low What do these critiques mean and what is their historical basis *More Statistical and Methodological Myths and Urban Legends* catalogs several of these quirky practices and outlines proper research techniques Topics covered include sample size requirements missing data bias in correlation matrices negative wording in survey research and much more Design and Analysis for Quantitative Research in Music Education Peter Miksza, Kenneth Elpus, 2018-02-01 In recent years academics and professionals in the social sciences have forged significant advances in quantitative research methodologies specific to their respective disciplines Although new and sophisticated techniques for large scale data analyses have become commonplace in general educational psychological sociological and econometric fields many researchers in music education have yet to be exposed to such techniques *Design and Analysis of Quantitative Research in Music Education* is a comprehensive reference for those involved with research in music education and related fields providing a foundational understanding of quantitative inquiry methods Authors Peter Miksza and Kenneth Elpus update and expand the set of resources that music researchers have at their disposal for conceptualizing and analyzing data pertaining to music related phenomena This text is designed to familiarize readers with

foundational issues of quantitative inquiry as a point of view introduce and elaborate upon issues of fundamental quantitative research design and analysis and expose researchers to new innovative and exciting methods for dealing with complex research questions and analyzing large samples of data in a rigorous and thorough manner With this resource researchers will be better equipped for dealing with the challenges of the increasingly information rich and data driven environment surrounding music education An accompanying companion website provides valuable supplementary exercises and videos

Current Theory and Research in Transforming Organizations Chester A. Schriesheim, Linda L. Neider, 2016-09-01 Perhaps the best word to describe the past fifteen or so years of the twenty first century is change Spurred on by the massive layoffs and reorganizations that took place during the recessionary period starting in late 2007 to changes in labor demographics technology competitiveness and the very nature of work business transformations have become the norm Even the most stodgy and inflexible organizations universities are beginning to understand the need for radical change if they hope to be sustainable in the future From our perspective as researchers in management we became increasingly interested in new trends and ideas in the field of transforming business and non profit enterprises What are the variables associated with success What determinants may mediate whether or not change efforts actually lead to more sustainable systems And how do such change efforts differ from strategic planning which has obviously been around and used for many years To begin answering such questions this volume attempts to bring together a number of scholars who present conceptualizations and preliminary research insights concerning organizational change and in two of the chapters explore the relationship between change efforts and strategy formulation implementation

Behavior Analysis Henry S. Roane, Andrew R. Craig, Valdeep Saini, Joel E. Ringdahl, 2024-01-12 Throughout this text many of the research paradigms and methodologies across experimental analysis of behavior EAB and applied behavior analysis ABA are presented within the bench to bedside approach of translational research described by the National Institutes of Health The first few chapters of the text introduce underlying core tenets of behaviorism as well as core characteristics and methods that define the field of behavior analysis The next several chapters of the book introduce the reader to some of the foundational principles of behavior analysis with coverage from both the EAB and ABA perspectives The final chapters of the book cover topics for which there has been ample basic applied and translational research conducted The text concludes with a chapter on ethics which includes content related to ethical issues in research ethical issues in clinical practice and the ethical use of nonhuman animals and special populations in research
