## Abstract

Populism may seem like it has come out of nowhere, but it has been on the rise for a while. I argue that economic history and economic theory both provide ample grounds for anticipating that advanced stages of economic globalization would produce a political backlash. While the backlash may have been predictable, the specific form it took was less so. I distinguish between left-wing and right-wing variants of populism, which differ with respect to the societal cleavages that populist politicians highlight. The first has been predominant in Latin America, and the second in Europe. I argue that these different reactions are related to the relative salience of different types of globalization shocks.

## INTRODUCTION

"Populism" is a loose label that encompasses a diverse set of movements. The term originates from the late nineteenth century, when a coalition of farmers, workers, and miners in the US rallied against the Gold Standard and the Northeastern banking and finance establishment. Latin America has a long tradition of populism going back to the 1930s, and exemplified by Peronism. Today populism spans a wide gamut of political movements, including anti-euro and anti-immigrant parties in Europe, and Syriza and Podemos in Greece and Spain, respectively. Trump's antitrade nativism in the US, the economic populism of Chavez in Latin America, and many others in between. What all these share is an antiestablishment orientation, a claim to speak for the people against the elites, opposition to liberal economics and globalization, and often (but not always) a penchant for authoritarian governance.<sup>1</sup>

I address two questions in this paper. First, what are the economic roots of populism? Second, what are the factors that affect the emergence of right- versus left-wing populism?

It may seem like populism has come out of nowhere. But the populist backlash has been on the rise for a while, for at least a decade or more (see Figure 1). More importantly, the backlash was perfectly predictable. I will focus in this paper on the economic
