Medical Anthropology Understanding Public Health:

Medical Anthropology Robert Pool, Wenzel Geissler, 2005-09-16 Medical anthropology is playing an increasingly important role in public health. This book provides an introduction to the basic concepts, approaches and theories used and shows how these contribute to understanding complex health related behaviour. Public health policies and interventions are more likely to be effective if the beliefs and behaviour of people are understood and taken into account. The book examines Concepts of culture, Medical systems, Patient's experience of illness and treatment, The use of medicines and healing practices, Public health and medical research. Examples of particular health problems such as HIV and malaria are used to show how an anthropological approach can contribute to both a better understanding of health and illness and to more culturally compatible public health measures. Series Editors: Rosalind Plowman and Nicki Thorogood. Medical Anthropology Pool, Robert, Geissler, Wenzel, 2005-09-01 This book provides an introduction to the basic concepts, approaches and theories used and shows how these contribute to understanding complex health related behaviour. Public health policies and interventions are more likely to be effective if the beliefs and behaviour of people are understood and taken into account.

Understanding and Applying Medical Anthropology Peter J. Brown, Svea Closser, 2016-07 The editors of the third edition of the seminal textbook *Understanding and Applying Medical Anthropology* bring it completely up to date for both instructors and students. The collection of 49 readings, 17 of them new to this edition, offers extensive background description and exposes students to the breadth of theoretical, methodological and practical perspectives and issues in the field of medical anthropology. The text provides specific examples and case studies of research as it is applied to a range of health settings from cross cultural clinical encounters to cultural analysis of new biomedical technologies and the implementation of programs in global health settings. The new edition features a major revision that eliminates many older readings in favor of more fresh relevant selections, a new section on structural violence that looks at the impact of poverty and other forms of social marginalization on health, an updated and expanded section on Conceptual Tools including new research and ideas that are currently driving the field of medical anthropology forward such as epigenetics and syndemics, new chapters on climate change, Ebola, PTSD among Iraq/Afghanistan veterans, eating disorders and autism among others, recent articles from Margaret Mead Award winners Sera Young, Seth Holmes and Erin Finley along with new articles by such established medical anthropologists as Paul Farmer and Merrill Singer. **Anthropology and Public Health** Robert A.
