Tavares/ Louise Emma Potter, 2018-03-05 In Project Based Learning Applied to the Language Classroom the authors propose  
a way to develop PBL in the language classrooms taking into account all of the obstacles and specifics involved in teaching a  
foreign language It is about teaching English as a second or foreign language using Project Based Learning PBL We  
approach this combination because many people seem to think about implementing PBL in their language classes and ask  
questions about how to do it but feel that there aren't enough materials based on this methodology In fact most researchers  
and writers we have come across discuss the applications of PBL in the students mother tongue to subjects such as Math  
History Literature Social Studies and Science However there are few published works about the specifics of PBL in foreign  
language classes Besides it seems obvious to us that the main difficulty in developing projects in a second or foreign  
language lies exactly on the fact that communication may be hindered when students do not have enough knowledge in the  
target language *English Teaching Forum*, 2009 Reaching and Teaching the Child with Autism Spectrum Disorder  
Heather MacKenzie, 2008 This book provides a positive approach to understanding and educating children on the autism  
spectrum The book gives greater insight into the perspective and behavior of a child with autism and explores how the child's  
learning preferences strengths and interests can be used to facilitate learning and enhance motivation SIMPLE
