Kokoszka,2023-08-25 T D Kokoszka grew up in Texas with a Jewish mother and a Polish American father While he was aware of roots going back to Eastern Europe from both families he found it hard to learn very much about them He knew that Polish people would whack one another with palm leaves around Easter and he knew that his great grandmother purportedly believed in forest spirits known as borowy However it wasn t until he was in his teens that he became vaguely aware of an ancient people known as the Slavs who gave rise to the Polish Ukrainian Russian Serbian Bulgarian Slovakian Slovene and Czech languages It quickly became clear to him that this was a family of cultures currently under represented in popular culture and even in western scholarship Not simply a regurgitation of scholarship from the Soviet period and presenting new analyses by using previously neglected resources *Bogowie A Study of Eastern Europe s Ancient Gods* offers one of the most painstaking scholarly reconstructions of Slavic paganism These new resources include not only an overview of folklore from many different Slavic countries but also comparisons with Ossetian culture and Mordvin culture as well as a series of Slavic folktales that Kokoszka analyzes in depth often making the case that the narratives involved are mythological and shockingly ancient Readers will recognize many European folktale types and possibly learn to look at these folktales differently after

without Greece no Euro without Greece no way back to the nation state in its old form As a result the debate on Europe was largely narrowed down to the very questions of the immediate crisis namely economics and finance Only a few voices held that the crisis in fact was one of politics not of economics And only late did politicians mention again that Europe is more than the EU Alternative views of Europe however were scarce and often presented full of consequences It thus came without much surprise that the lacking imaginative power of politicians as well as intellectuals was criticized The idea for this volume sprang from that situation The editors invited scholars from various disciplines to present them with ways of imagining Europe that go beyond the rather limited view of EU institutions How was how is Europe imagined Which memories are evoked which visions explicated Which counter narratives to prominent discourses are there *The New York Times: 36 Hours. 125 Weekends in Europe* Barbara Ireland, **Hand-book for European and Oriental Travelers** ,1896

New political alignments surfaced on the back of such concerns and established organizations changed their agendas accordingly. The border regimes of EU member states became increasingly fraught both in terms of their everyday operations and in terms of the close attention and vociferous debates they attracted. In most instances the internal and external borders of the EU hardened and with increasing frequency the cohesion of the transnational union seemed on the verge of fracturing. Indeed very real fissures opened up with secessionist moves and referendums. Through each step in this juncture of upheavals the significance of race has been reiterated in tangential ways and sometimes with unabashed straightforwardness. This volume explores this juncture around 2015 and the constructions of race and of crisis therein for specific contexts and from a range of disciplinary perspectives. The introduction gives an overview of the juncture focusing on the rise of Eurosceptic nationalist political parties and their electoral success. Subsequent chapters are addressed to the management and representation of immigrants crossing the Mediterranean border regimes in the Czech Republic, the narratives that converged on Brexit riots in England, antagonistic popular movements in Sweden, racialization in crisis management in Italy, perceptions of migrants in Greece and how race may be structured in and challenged through classroom pedagogy. This book was originally published as a special issue of *Ethnic and Racial Studies*.
