Volkskundliche Archiv-Forschung zu den Deutschen in und aus dem östlichen Europa* Hans-Werner Retterath, 2015 In volkskundlichen Forschungen zu den Deutschen in und aus dem stlichen Europa wurde bisher häufig auf die Methoden der Befragung und der teilnehmenden Beobachtung zurückgegriffen Seit einigen Jahren zeichnet sich eine Veränderung im empirischen Zugang zu den Forschungsfeldern ab Mit größer werdendem zeitlichen Abstand und dem Zutreten der Erlebnisgeneration geraten Archive als unverzichtbare Quellenbasis immer stärker ins Blickfeld Vor diesem Hintergrund gewinnen die umfangreichen Archivbestände des IVDE umso größere Bedeutung und bieten einen Ausgangspunkt für diesen Sammelband In den Beiträgen werden neben der Erörterung grundsätzlicher archivischer Themen wie dem Ordnen der Zeit verschiedene Aspekte der Produktion und Interpretation von Archivalien behandelt Darüber hinaus werden einzelne Archive und Archivbestände sowie auf Archivalienbasis erhobene Forschungsergebnisse vorgestellt Mit Beiträgen von Siegfried Becker Susanne Clau Sönke Friedreich Ursula Schlude Kurt Hochstuhl Wiebke Jarecki Wolfgang Kessler Michael Portmann Michael Prosser Schell Hans Werner Retterath Mirosław Sikora **Illusions of Sceptics** Jiri Fuchs, 2021-08-31 It is the authors belief that philosophers if they aspire to critical thinking have to start their investigation by embracing the concept of truth as an underlying

characteristic of the human thought The cornerstone of the entire Noetics is to construct the apodictic proof of the objective truth which is in the correspondence sense assumed whether they realize it or not even by the most extreme sceptics This proof also refutes the traditional objections purporting that all the attempts at the self explanation of reason inevitably result in dogmatism circular logic or infinite regress Accordingly the verification of truth as a mandatory attribute of the human thought becomes the main benchmark not just for the noetic but for every subsequent philosophical investigation This critical confrontation invalidates the modern theories of knowledge along with their negativistic vein exposing them as basically dogmatic and intrinsically contradictory By providing a liberating distance from the principle authorities of modern philosophy the true Noetics can show that the tragic and anthropologically destructive outcome in the postmodern relativism of values is by no means an indispensable attribute of philosophy proper but just a consequence of the failure of the modern thinkers to pay proper attention to the Noetics

Dictionary of Criminology Mwene Mushanga, 2011-12-29 In professional disciplines just as in academics the definition of basic concepts is fundamental for adequate understanding of issues A dictionary of criminology may be regarded as irrelevant for the simple reason that criminology cannot be said to constitute an academic or professional discipline in East Africa But this dictionary is not limited to criminological or sociological concepts alone Just like any academic discipline it covers other areas of social studies such as law economics and politics The dictionary covers some areas that to the average reader are least related to law and crime but to the specialist even the least likely entry like race tribe and democracy is in some remote way linked to the incidence of crime delinquency or deviance

Perspectives on Written Cameroon Literature in English A. Ambanasom, 2013-02-17 In 2009 Anglophone Cameroon literature celebrated its fifty years of existence Now at the mature age of fifty plus this literature has a great deal to write home about even if it still has a lot to do in its pursuit of excellence Part of its maturity resides in the fact that although the scale of literary creativity and literary criticism is skewed in favour of the former Anglophone Cameroon literary criticism is gradually waking up from slumber in an attempt to catch up with the rapidly expanding creativity The essays in this book comment practically on some aspects of all the genres of written literature that the Anglophone Cameroon creative writers have produced so far the novel drama poetry the short story the essay and childrens literature The essays on the whole are a testimony of the transition and reality from the apparent drought of Anglophone Cameroon literary paucity to the actual fruitful period of Anglophone Cameroon abundance of literary creativity The Anglophone Cameroonians have appropriated an imperial language English to serve their postcolonial Cameroonian vision Their various literary texts are vehicles of representations that are essentially cultural and ideological constructs The works examined are initially anchored on Cameroonian experiences to take on social significance As they are grounded on moving human experiences these works necessarily make references to the immediate Cameroonian environment of their authors before taking on universal human significance The book abundantly evidences and crowns Shadrach Ambanasoms achievements and reputation as a skilled

pedagogue on the art of practical literary criticism

Good Pastors, Bad Pastors Dela

Quampah, 2014-08-20 The emergence of Pentecostalism in Ghana has attracted a massive following and generated institutions that have significantly impacted Christian discourse and national life The movement has produced prominent leaders who have developed exemplary Christian education programs and generated volumes of Christian literature

unprecedented in Ghanaian Christianity Nevertheless public opinion often upbraids church leaders for unethical conduct Despite the concern for high moral standards set by Pentecostal church polity and ministerial ethical codes reports of Pentecostal ministerial misconduct appear regularly in the media Although congregation members and perceptive public observers appreciate the constructive moral impact of Pentecostal ministers instances of promiscuity power abuse financial misappropriation and superstition reveal a gap between ethical ideals and practice As this research reveals factors behind unethical ministerial conduct include inadequate training poor accountability and a general low level of ethical reflection Good Pastors Bad Pastors suggests that a multidimensional approach of responsible reportage emphatic moral education appropriate but sympathetic response to moral failure and peer review accountability could help uphold a higher standard of ministerial ethics

Vermeer and Plato Robert D. Huerta, 2005 There are thirty six illustrations Jacket *An Introduction to the Phenomenology of Religion* James Cox, 2010-02-10 In this thoroughly revised edition James Cox provides an easily accessible introduction to the phenomenology of religion which he contends continues as a foundational method for the academic study of religion in the twenty first century After dealing with the problematic issue of defining religion he describes the historical background to phenomenology by tracing its roots to developments in philosophy and the social sciences in the early twentieth century The phenomenological method is then outlined as a step by step process which includes a survey of the important classifications of religious behaviour The author concludes with a discussion of the place of the phenomenology of religion in the current academic climate and argues that it can be aligned with the growing scholarly interest in the cognitive science of religion

History of Islamic Philosophy I.M.N. Al-Jubouri, 'Imād al-Dīn Jubūrī, 2004 Very occasionally a book appears which provides a perfect bridge between amateurs and professionals This event is usually less likely to happen in the somewhat arcane field of philosophy and almost beyond concept in the English speaking world when the subject is entwined with the history of Islam The finer points of philosophical issues are also discussed and presented to enable anyone whether a scholar or not Arabic or Westerner to understand the truths these ancients sought
