### Difference Between Auditing and Investigation

Auditing is the process of reviewing the book of accounts of a certain entity and reporting on it. An investigation is considered to be an enquiry which is conducted for establishing a specific truth or fact about that entity. The difference between auditing and investigation is explained vividly in the below table -

Basis for Comparison	Auditing	Investigation
Nature	General Investigation	A critical and in-depth investigation
Evidence	The nature of the evidence is persuasive	The evidence is unquestionable
Time Horizon	Annually	As per requirement
Performed by	Chartered accountant	Experts
Reporting	General-purpose	Confidential
Obligatory	Yes	No
Appointment	The shareholders of the company appoint an auditor.	The management or investors or a third party appoints an investigator.
Scope	Seeks to form an opinion on the financial report.	Seeks to answer the questions in the engagement letter.
