Digital Opportunities in African Businesses Marcio Cruz, 2024-09-18 Adoption of digital technologies is widely acknowledged to boost productivity and employment stimulate investment and promote growth and development Africa has already benefited from a rapid diffusion of information and communications technology characterized by the widespread adoption of mobile phones However access to and use of digital technology among firms is uneven in the region varying not just among countries but also within them Consequently African businesses may not be reaping the full potential benefits offered by ongoing improvements in digital infrastructure Using rich datasets Digital Opportunities in African Businesses offers a new understanding of the region's incomplete digitalization namely shortfalls in the adoption and effective use of digital technology by firms to perform productive tasks The research presented here also highlights the challenges in addressing incomplete digitalization finding that the cost of machinery equipment and software as well as the cost of connectivity to the internet is significantly more expensive in Africa than elsewhere Digital Opportunities in African Businesses outlines ways in which the private sector with support from policy makers international institutions and regulators can help bring down these costs stimulating more widespread digitalization of the region's firms thereby boosting productivity and by extension economic development This book will be relevant to anyone with an interest in furthering digitalization across Africa It is clear that new digital technologies are opening up new opportunities for economic growth But will African firms be able to take advantage of them If so how To gain traction on these questions we first need careful empirical research on what firms are currently doing and rigorous thinking about what is getting in the way of greater adoption This book delivers on both dimensions It marries carefully collected new evidence with thoughtful no nonsense analysis of firm behavior and how markets are evolving It is highly recommended reading for researchers and policymakers alike Eric Verhoogen Professor of International and Public Affairs and of Economics Columbia University **Unlocking**

SME Finance in Asia Naoyuki Yoshino, Farhad Taghizadeh-Hesary, 2019-07-01 There is limited access for small and medium sized enterprises SMEs to bank credit This book proposes new and sustainable models to help ease the access of SMEs to finance and boost economic growth and job creation in Asia This book looks at the difficulties of SMEs in accessing finance and suggests ways on how to mitigate these challenges It suggests how we can develop credit information infrastructures for SMEs to remedy the asymmetric information problem and to utilize credit rating techniques for the development of a sustainable credit guarantee scheme The book provides illustrations of various Asian economies that implemented credit guarantee schemes and credit risk databases and is a useful reference for lessons and policy recommendations Electronic Finance Stijn Claessens, Thomas C.
