

124 D For about two weeks. .... And have you had  
 125 anything since then?  
 126 P I've had a sour stomach.  
 127 P I'm on a diet now  
 128 and I don't dare go off because I end up with a sour  
 129 stomach.

130 D Hm hm  
 131 Now, what does it mean to have a sour  
 132 stomach? What is a sour stomach? A heartburn like  
 133 heartburn or something.

134 D Does it hurt here?  
 135 P Yeah. It li- I think-  
 136 I think it like, if you take a needle and stick you right

137 D Hm hm  
 138 P there's a pain right here ... and then it goes from here on this

139 D Hm hm  
 140 P = side to  
 141 D Hm hm Does it go into the back?  
 142 P It's all up here. No. It's  
 143 all right up here in front.

144 D Yeah. And when do you get that?  
 145 P  
 146 Well when I eat something wrong.

149 P Well ..... probably  
 150 an hour .... maybe less.

151 D About an hour?  
 152 P Maybe less.

153 P I've  
 154 cheated and I've been drinking which I shouldn't have done.

155 D  
 156 Does drinking make it worse?  
 157 P (...) Ho ho uh ooh Yes.  
 158 Especially the carbonation and the alcohol.

159 D Hm hm

160 How much do you drink?

Diagnostic Controversy Carolyn Smith-Morris, 2015-08-20 This collection is dedicated to the diagnostic moment and its unrivaled influence on encompassment and exclusion in health care Diagnosis is seen as both an expression and a vehicle of biomedical hegemony yet it is also a necessary and speculative tool for the identification of and response to suffering in any healing system Social scientific studies of medicalization and the production of medical knowledge have revealed tremendous controversy within and factitiousness at the outer parameters of

diagnosable conditions Yet the ethnographically rich and theoretically complex history of such studies has not yet congealed into a coherent structural critique of the process and broader implications of diagnosis This volume meets that challenge directing attention to three distinctive realms of diagnostic conflict in the role of diagnosis to grant access to care in processes of medicalization and resistance and in the transforming and transformative position of diagnosis for 21st century global health Smith Morris s framework repositions diagnosis as central to critical global health inquiry The collected authors question specific diagnoses e g Lyme disease Parkinson s andropause psychosis as well as the structural and epistemological factors behind a disease s naming and experience

**Research Interviewing** Elliot George MISHLER, Elliot George Mishler, 2009-06-30 Interviews hold a prominent place among the various research methods in the social and behavioral sciences This book presents a powerful critique of current views and techniques and proposes a new approach to interviewing At the heart of Elliot Mishler s argument is the notion that an interview is a type of discourse a speech event it is a joint product shaped and organized by asking and answering questions This view may seem self evident yet it does not guide most interview research In the mainstream tradition the discourse is suppressed Questions and answers are regarded as analogues to stimuli and responses rather than as forms of speech questions and the interviewer s behavior are standardized so that all respondents will receive the same stimulus respondents social and personal contexts of meaning are ignored While many researchers now recognize that context must be taken into account the question of how to do so effectively has not been resolved This important book illustrates how to implement practical alternatives to standard interviewing methods Drawing on current work in sociolinguistics as well as on his own extensive experience conducting interviews Mishler shows how interviews can be analyzed and interpreted as narrative accounts He places interviewing in a sociocultural context and examines the effects on respondents of different types of interviewing practice The respondents themselves he believes should be granted a more extensive role as participants and collaborators in the research process The book is an elegant work of synthesis clearly and persuasively written and supported by concrete examples of both standard interviewing and alternative methods It will be of interest to both scholars and clinicians in all the various fields for which the interview is an essential tool

**The Sociology of Healthcare** Sarah Earle, Gayle Letherby, 2008-03-28 A comprehensive collection of classic and contemporary readings in the sociology of health The Sociology of Healthcare will stimulate debate reflexive practice and critical thinking in applied sociology and is aimed at the teaching and learning needs of both lecturers and students
