## SLOT-IN COOKER USER & INSTALLATION INSTRUCTIONS MODEL EW11

### Retention of this instruction leaflet

This instruction leaflet must be kept handy for reference as it contains important details on the safe and proper use of the appliance. If you sell or pass the appliance to someone else, or move house and leave it behind, make sure this leaflet is also passed on. The new owner can become familiar with the appliance and safety warnings. If the leaflet is lost or damaged a copy may be obtained from: Hotpoint Ltd., Celis Road, Peterborough, PE2 9UB.

## Before you operate your new Hotpoint Cooker

Please read these instructions fully.

**ENSURE THAT THE COOKER IS INSTALLED BY A QUALIFIED ELECTRICIAN FOLLOWING THE INSTRUCTIONS OVERLEAF.**

## The Main Parts of your Cooker

**WARNING: DO NOT TOUCH THE OVEN DOORS WHEN THE OVEN IS IN USE AS THESE AREAS CAN BECOME HOT.**

## The cooking systems in your Cooker

**PLEASE NOTE** that when the cooker is used for the first time a slight odour may be emitted due to the 'burning off' of any temporary finish on oven fittings and elements and the removal of moisture absorbed by the lagging. The odour will cease after a short period of use. Ensure that the room is well ventilated (e.g. open a window or door) and that persons who may be sensitive to the odour avoid fumes. It is suggested that any pets be removed from the room until the 'new smell' has ceased.

1. Variable Grilling is a conventional full width variable grill.

**Note: Grilling can only be undertaken with the oven door open.**

2. Conventional Heating (Oven). Fitted with side elements to provide conventional cooking.

## The Controls

Switch on the electrical supply to the cooker at the Cooker Control Unit.

### Control Knobs

The knobs for the hob can be rotated in either direction to provide fully variable heat control. Over/Grill knobs can **only** be rotated clockwise from the Off position.

### Hob Controls

Each control can be used to select one of six temperature settings from position 1 (minimum) to position 6 (maximum). For normal cooking, after having placed the pan on the required hob position, set the control knob to 6 (maximum), wait until boiling point is reached, then set the control knob to a lower position as required.

### Grill/Oven Controls

Designed to operate either the oven or grill depending on the position of the oven door. With the door in the open or grilling position, the grill control provides fully variable heat control selecting any number between 1 and 6.

**The grill will only operate when the oven door is open.**

The power level numbers are indicated on the knobs. An indicator light will glow when the control is turned on.

### Oven

When the oven door is closed, the temperature in the oven can be set anywhere between 75°C and 250°C. The oven (thermostat) indicator light will glow initially and remain on until the oven reaches the required temperature. It will then cycle off and on as the oven (thermostat) maintains the correct temperature. The 'off' position is identified by an 'O'. To remove the oven shelves - pull the shelf towards the oven. To replace - locate the shelf position and push inward ensuring that the shelf is firmly positioned on the shelf runners.

## Using the Hob

### Use of the Hotplates

The front left red spot hotplate heats up more rapidly than the other hotplates. Use the red spot plate to give faster boiling times.

Turn the control knob to 6 for fast cooking.

To reduce the heat to cook more slowly or simmer - turn the knob to a lower setting, which will vary according to the size of the saucepan and the amount of liquid. The two small hotplates are specially for smaller pans, low temperature cooking and simmering.

**WARNING - Do not leave anything on the hob when it is not in use. Never leave a hotplate switched on without a pan as this wastes energy and will shorten the life of the hotplate.**

See chart below for guide to control settings.

### Control Settings guide

This table is provided only as a guide - settings also depend on the type of pan used and the quantity of food.

### COOKING CHART
