**Insularity, Identity and Epigraphy in the Roman World** Javier Velaza,2017-05-11 This book explores the subject of islands their essence and identity their isolation and their relationships in the Ancient world It investigates Greek and Roman concepts of insularity and their practical consequences for the political economic and social life of the Empire The contributions examine whether being related to an island was an externally or internally distinctive feature and whether a tension between insularity and globalisation can be detected in this period The book also looks at whether there is an insular material culture an island based approach to sacredness or an island based category of epigraphy **The Roman Villa in the Mediterranean Basin** Annalisa Marzano,Guy P. R. Métraux,2018-04-30 This volume offers a comprehensive survey of Roman villas in Italy and the Mediterranean provinces of the Roman Empire from their origins to the collapse of the Empire The architecture of villas could be humble or grand and sometimes luxurious Villas were most often farms where wine olive oil cereals and manufactured goods among other products were produced They were also venues for hospitality conversation and thinking on pagan and ultimately Christian themes Villas spread as the Empire grew Like towns and cities they became the means of power and assimilation just as infrastructure such as aqueducts and bridges was transforming the Mediterranean into a Roman sea The distinctive Roman Italian villa type was transferred to the provinces resulting in Mediterranean wide culture of rural dwelling and work that further unified the Empire **Labra di età romana in marmi bianchi e colorati** Annarena Ambrogi,2005 **Pax and the Politics of Peace** Hannah Cornwell,2017-07-13 Perhaps in

defiance of expectations Roman peace pax was a difficult concept that resisted any straightforward definition not merely denoting the absence or aftermath of war it consisted of many layers and associations and formed part of a much greater discourse on the nature of power and how Rome saw her place in the world During the period from 50 BC to AD 75 covering the collapse of the Republic the subsequent civil wars and the dawn of the Principate the traditional meaning and language of peace came under extreme pressure as pax was co opted to serve different strands of political discourse This volume argues for its fundamental centrality in understanding the changing dynamics of the state and the creation of a new political system in the Roman Empire moving from the debates over the content of the concept in the dying Republic to discussion of its deployment in the legitimization of the Augustan regime first through the creation of an authorized version controlled by the princeps and then the ultimate crystallization of the pax augusta as the first wholly imperial concept of peace Examining the nuances in the various meanings applications and contexts of Roman discourse on peace allows us valuable insight into the ways in which the dynamics of power were understood and how these were contingent on the political structures of the day However it also demonstrates that although the idea of peace came to dominate imperial Rome s self representation such discourse was nevertheless only part of a wider discussion on the way in which the Empire conceptualized itself

**Wandering Myths** Lucy Gaynor Audley-Miller, Beate Dignas, 2018-10-08 In spite of the growing amount of important new work being carried out on uses of myth in particular ancient contexts their appeal and reception beyond the framework of one culture have rarely been the primary object of enquiry in contemporary debate Highlighting the fact that ancient societies were linked by their shared use of mythological narratives Wandering Myths aims to advance our understanding of the mechanisms by which such tales were disseminated cross culturally and to investigate how they gained local resonances In order to assess both wider geographic circulations and to explore specific local features and interpretations a regional approach is adopted with a particular focus on Anatolia the Near East and Italy Contributions are drawn from a range of disciplines and cross a wide chronological span but all are interlinked by their engagement with questions focusing on the factors that guided the processes of reception and steered the facets of local interpretation The Preface and Epilogue evaluate the material in a synoptic way and frame the challenging questions and views expressed in the Introduction

Marble Statuettes of the Roman Period Brian Martens,2025-07-18

The excavations of the Athenian Agora have played a major role in bringing to light the rich sculptural legacy of ancient Athens The project s storerooms boast one of the most important bodies of sculpture from classical antiquity covering the complete range and history of output in a storied center of artistic production This volume presents for the first time the marble

statuettes and statuette fragments carved between the 1st century BCE and the 4th century CE that have been excavated from the Agora since 1931. Comprising one in six figural sculptures found at the site, these works are testament to a thriving demand for small divine images in Roman period Greece that has been insufficiently recognized until now. Among these broken and battered figures are the portraits of polytheistic Athens, naked Aphrodite at her bath, winged Eros assisting his mother, tired Herakles after a labor, teenage Artemis aiming her bow, attentive Asklepios dispatching cures. The author marshals a detailed and heavily illustrated catalogue of 672 objects to offer new data to the study of Greek iconography and sculptural production. Taken as a collective whole, the statuettes document the vibrant religion, society, and art of Athens and beyond.

**Beyond the Nile** Sara E. Cole, 2018-04-17 From about 2000 BCE onward, Egypt served as an important nexus for cultural exchange in the eastern Mediterranean, importing and exporting not just wares but also new artistic techniques and styles. Egyptian, Greek, and Roman craftsmen imitated one another's work, creating cultural and artistic hybrids that transcended a single tradition. Yet in spite of the remarkable artistic production that resulted from these interchanges, the complex vicissitudes of exchange between Egypt and the Classical world over the course of nearly 2500 years have not been comprehensively explored in a major exhibition or publication in the United States. It is precisely this aspect of Egypt's history, however, that *Beyond the Nile* uncovers. Renowned scholars have come together to provide compelling analyses of the constantly evolving dynamics of cultural exchange: first between Egyptians and Greeks during the Bronze Age, then the Archaic and Classical periods of Greece, and finally Ptolemaic Egypt, and later when Egypt passed to Roman rule with the defeat of Cleopatra. *Beyond the Nile*, a milestone publication issued on the occasion of a major international exhibition, will become an indispensable contribution to the field. With gorgeous photographs of more than two hundred rare objects, including frescoes, statues, obelisks, jewelry, papyri, pottery, and coins, this volume offers an essential and interdisciplinary approach to the rich world of artistic cross-pollination during antiquity.

**Trade, Commerce, and the State in the Roman World** Andrew Wilson, Alan K. Bowman, 2018 In this volume, papers by leading Roman historians and archaeologists discuss trade within the Roman Empire and beyond its frontiers between c. 100 BC and AD 350, focusing especially on the role of the Roman state in shaping the institutional framework for trade. As part of a novel interdisciplinary approach to the subject, the chapters address its myriad facets on the basis of broadly different sources of evidence: historical, papyrological, and archaeological, demonstrating how collaborations with the elite holders of wealth within the empire fundamentally changed its political character in the longer term.
