**Until Mister** Charity Parkerson, 2022-11-02 Wren thrives on being wicked Haven needs to steer clear of his brand of trouble They are both just trying to survive Most people consider Wren as born blessed He has the looks of an angel the

morals of a devil and isn't afraid to use whichever trait he needs most for every situation. What his looks won't buy him, his connections will. As the son of a famous actor, there isn't a door in society blocked to him. Unfortunately, his father blew through his money long before dying of a drug overdose, leaving Wren to work to pay his way. It's a good thing he has a body men can't resist and a personality to match. The last thing he needs is a controlling ex-BDSM master getting in his way. Haven aka Mister is just trying to get through the day. Between his bestselling BDSM how-to books and his job at Cubs for Rent, he isn't hurting for money, but his personal life is a different story. It's dead in the water. After ruining his relationship with the only man Haven cares to love, he has no intentions of ever dating again. He knows he's poisonous and he won't risk hurting anyone else. That's exactly why he has to stay away from Wren. Too bad he can't. With an unexplainable draw pulling them closer together, it's only a matter of time before they break. But there's more to Wren than a pretty face, and he's in bigger danger of losing everything than even he knows. Unless Haven can save him, that is.

Dr. Sally Ride, Astronaut. *The Book of the Ocean* Ernest Ingersoll, 1898.

*The Great White Bear* Kieran Mulvaney, 2011-01-12. This up-close and graceful account of the polar bear combines historical accounts, research, and the author's own encounters in the Arctic. Kirkus Reviews: Polar bears are creatures of paradox. They are white bears whose skin is black, massive predators who can walk almost silently. Arctic residents whose major problem is not staying warm but keeping cool. Fully grown, they can measure ten feet and weigh close to two thousand pounds, but at birth they are just twenty ounces. Human encounters with these legendary creatures can be both exhilarating and terrifying. Tales throughout history describe the ferocity of polar bear attacks on humans. But human hunters have exacted a far larger toll, obliging Arctic nations to try to protect their region's iconic species before it's too late. Now another threat to the polar bear's survival has emerged, one that is steadily destroying sea ice and the life it supports. Without this

habitat polar bears cannot exist The Great White Bear celebrates the story of this unique species Through a blend of history myth personal observations and scientific accounts Kieran Mulvaney tells the story of the polar bear its history its life and its uncertain fate
