The Tyranny of Writing Constanze Weth, Kasper Juffermans, 2018-01-25 This book examines the powerful role of writing in society The invention of writing independently at

various places and times in history always stood at the cradle of powerful civilizations It is impossible to imagine modern life without writing As individuals and social groups we hold high expectations of its potential for societal and personal development Globally huge resources have been and are being invested in promoting literacy worldwide So what could possibly be tyrannical about writing The title is inspired by Ferdinand de Saussure's argument against writing as an object of linguistic research and what he called *la tyrannie de la lettre* His critique denounced writing as an imperfect distorted image of speech that obscures our view of language and its structure The chapters of the book written by experts in language and literacy studies go beyond this and explore tyrannical aspects of writing in society through history and around the world from Medieval Novgorod the European Renaissance and 19th century France and Germany over colonial Sudan to postcolonial Sri Lanka and Senegal and present day Hong Kong and Central China to the Netherlands and Spain The metaphor of tyranny of writing serves as a heuristic for exploring ideologies of language and literacy in culture and society and tensions and contradictions between the written and the spoken word
