Klug,Frederike Neuber,Gerlinde Schneider,2018-11-15 Interfaces are important elements of digital scholarly editions as they allow and direct the interaction of users with the online content and they facilitate the access to and exchange of data and information Some interfaces are created for the human user GUI others for machine interaction and data exchange API Both aspects of interfaces and their roles in digital scholarly editing were discussed at a conference in 2016 organised by the Centre for Information Modelling at the University of Graz and the Digital Scholarly Editions Initial Training Network DiXiT This volume includes a range of papers presented at the conference that highlight the diverse views and approaches towards interfaces in the digital scholarly editing community *The Threshold* Nick Chatrath,2023-02-28 Accomplished leadership consultant Nick Chatrath offers a revolutionary framework for how leaders in all kinds of organizations can adapt to the new age of technology like ChatGPT the Age of AI by leaning into the qualities and skills that make us uniquely human For readers of Yuval Noah Harari's 21 Lessons for the 21st Century and Max Tegmark's Life 3.0 The Threshold is a bold new way to think about human emotionally intelligent leadership right now as we stand at the threshold of AI superintelligence We are living in a new age the Age of AI With developments emerging every day Artificial

Intelligence will soon surpass most human competencies and as a result drastically transform technology's role in our day to day world. The solution for organizational leaders is not to become more like computers. In order for our organizations to survive as we stand at the threshold of a new era, we must tap into the qualities that make us uniquely human. In the face of increasingly intelligent technology, old models of leadership are becoming obsolete. In *The Threshold: Leading in the Age of AI*, accomplished leadership consultant Nick Chatrath interweaves an analysis of antiquated leadership models, the ones that leave AI Era organizations exposed and ineffective, with colleagues frustrated, unmotivated and burnt out, with his newly developed strategies for more effective threshold leadership methods. Supported with anecdotes, research and a practical toolkit, *The Threshold* demonstrates that adaptive, effective organizations can be built with human emotional intelligence, cultivating stillness, nurturing independent thinking, finding rhythms of rest and performance, and raising leadership consciousness. With a basis in the ideas and practices that have shaped our organizations in the past, *The Threshold* illuminates how accessing advanced stages of human development can be both competitive and harmonious with AI's growing insinuation into our working world.

Data Protection and Interoperability in EU External Relations

Francesca Tassinari, 2024-10-28. This book assesses whether the implementation of transborder interoperable solutions aligns with the European Union's standards and rules on personal data transfer. It specifically examines the principles and values enshrined in the founding Treaties that steer the EU's external activities as a global actor. It will help you understand the privacy and data protection standards the EU must uphold when pursuing its objectives of freedom, security and justice externally. You'll learn about the limits on the processing of personal data by large scale IT systems in the area of freedom, security and justice and explore the full scope of the 2019 interoperability regulations n 817 and 818. Also, the volume offers a series of diagrams, tables and figures that will make your reading as smooth as possible.
