## Audit change data shows differences at Big 4 firms

In the chart for new audits, one Big-4 firm has held steady with its last number of audit clients while three others have seen net losses numbering in the 20s. **Tammy Whitehouse** has the results of the latest data from Audit Analytics.

**F**ew go-to investment strategies provide more bang for the buck than value investing. In fact, the growth of value investing has been so rapid that it has become the dominant strategy among institutional investors. But what is value investing, and how can you use it to your advantage?

Abstract: *How do these patterns of differentiation between the two types of the system of health insurance affect the health insurance system? It is especially important to analyze the structure of these expenditures. Empirical results on social expenditures indicate that the income dependence of expenditures is higher for health insurance financing than for other social security and welfare expenditures. The results suggest that the system of health insurance is more income dependent than other social security and welfare expenditures.*

Shawyer said construction accounting is not unique to either the public or private sector, because public officials, government agencies and the private sector have been involved for years in the same way. "Construction projects are not just built, they are sold off and then, after construction, they're not just building tools. They're being sold to the public for use."
