Discovering Gurdjieff Dorothy Phillips, 2008 *Discovering Gurdjieff* is more than just a memoir it is an at times painfully honest account of one woman's quest to find answers to the questions that troubled her from an early age and ultimately to discover a philosophy of life by which she might live Along the way she examines various religions but it is not until her introduction to Gurdjieff's work through the 1941 lectures of J G Bennett the essence of which she reproduces in his original words that her search is rewarded In later chapters she faithfully reproduces the conversations she had in Paris with Gurdjieff and the monumental effect his teachings had on her search for Truth Gurdjieff has had a lifelong influence on Dorothy and she spent much of the last 25 years of her life setting down her memories and ensuring their accuracy At the time of writing she was one of the last few people left alive who knew Gurdjieff personally and as such her book gives an authentic view of the work and charismatic nature of this teacher who Colin Wilson called the greatest teacher of the 20th century However the unique element of this book is her description of the way meetings with Gurdjieff himself along with her fervent study of relevant works gradually enabled her to discover herself Dust jacket **Bioethics in Canada, Third Edition** Carol Collier, Rachel Haliburton, 2021-03-25 Now in its third edition *Bioethics in Canada A Philosophical Introduction* offers a comprehensive overview of the philosophical historical and medical concepts shaping contemporary debates on biomedical issues The text opens with an introduction to moral theory and bioethical principles followed by application of these theories and principles to real world ethical conflicts involving abortion distributive justice genetics reproductive technology and other vital topics A landmark case opens each chapter illuminating the many issues involved in these debates
