People and Spaces Experience Ethics and Intent examines the dynamic relationship between built environments and human behavior in today's rapidly evolving world. Co-edited by a designer and a psychologist, this interdisciplinary collection reveals how the spaces we inhabit shape and reflect our self-expression, social structures, and cultural values. Drawing on diverse perspectives, case studies, and innovative research, *People and Spaces* equips readers from any discipline with practical, human-centric knowledge to enhance environments in meaningful ways. This blend of essays and expert insights demonstrates the value of intentional approaches to design and research and offers actionable guidance for creating supportive and sustainable environments. This book is relevant to a broad audience, including scholars, professionals, and students in architecture, interior design, psychology, and related fields, as well as industry practitioners interested in the intersection of built environments and human experience. It is an essential resource for those seeking to understand and influence the dynamic relationship between people and space.

The Handbook of Interior Design Jo Ann Asher Thompson, Nancy Blossom, 2015-04-20. THE HANDBOOK OF INTERIOR DESIGN. The Handbook of Interior Design offers a compilation of current works that inform the discipline of interior design. These examples of design scholarship present a detailed overview of current research and critical thinking. The volume brings together a broad range of essays from an international group of scholars who represent the diversity of work in the field. Intended to engage those involved in the study and practice of interior design, the Handbook considers the connections between theory, research, and practice that shape the field of interior design, as well as the theoretical perspectives that inform the field. It contains over thirty essays which together demonstrate the wide range of opinions and knowledge in the discipline, grouped in sections to reflect key components of their content. A close reading of the essays will uncover contradictory as well as supporting positions on aspects of interior design, challenging the reader to think critically and develop a personal stance toward the subject.

The Built Environment Wendy R. McClure, Tom J. Bartuska, 2011-09-09. This book takes a sweeping view of the ways we build things, beginning at the scale of products and interiors to that of regions and global systems. In doing so, it answers questions on how we effect and are affected by our environment and explores how components of what we make from products, buildings, and cities are interrelated and why designers and planners must consider these connections.
