Beckstrom, 2013-03-01 As the Christian church moved from its inception in an Eastern Oriental culture westward across Asia Minor Turkey into Greco Roman culture with primarily a Western philosophy theology and values Jesus message and Paul s teachings began to be interpreted according to those cultural norms While Paul kept calling his churches back to their Jewish roots and Eastern values the Jewish voice was lost when the Jerusalem church dispersed as Israel fell during the Jewish Revolt of 66 73 AD The temple was destroyed its clergy silenced and Judaism seemed irrelevant to the growing Christian church The church had become primarily Gentile in theology and philosophy and its Hebrew foundation was largely forgotten and lost In **Beyond Christian Folk Religion** Beckstrom brings the reader back to Jesus roots Romans 11 17 23 and to the core of Paul s message      **Forces of Nature** Barry A. Vann, 2012-03-20 As long as the human species has existed men and women have had to contend with the unpredictable forces of nature Geographer Barry A Vann brings a unique perspective to this age old struggle in this illuminating overview of human population shifts and their precarious relationship with climate change and geography Vann takes us on a journey along the migration routes of the earliest modern humans and tells why our ancestors chose to settle down in places that can be best described as natural utopias In the religiously oriented worldview of ancient peoples such places took on a sacred aura of divine favor Similarly destructive events such as volcanic eruptions and earthquakes were interpreted as expressions of divine wrath Vann shows how the ancient texts of the Bible and the Qur an offer glimpses of past climates that were distinctly different from the climate of our time He also discusses the rise of technology as a means of controlling the threatening features of the natural world Though technology has enabled humanity to cope with hostile climates it has also created a false sense of security Vann notes that population clusters are increasing in dangerous areas and that no technology can protect vulnerable groups from major category hurricanes tornadoes or earthquakes Finally he considers our current anxieties regarding global warming pointing out that this focus has obscured a good deal of historical and geological evidence for a return of another ice age The **Forces of Nature** offers a

challenging perspective on the precarious balance between fragile human communities and their often threatening environments     International Studies Sheldon Anderson, Mark Allen Peterson, Stanley W. Toops, Jeanne A. K.

**and Texas Politics** Tedin, Donald S. Lutz, 1997-08     Puritan Islam Barry A. Vann, 2011-09-27 In this unique analysis of Muslim population shifts in the Western world geographer Barry A Vann provides fresh insights into the theological factors that play into these demographic trends Vann examines the imagined geographies of Muslims with a puritan orientation People with this mind set are little inclined to accept a pluralistic multicultural live and let live concept of society And conflicts between conflicting value systems are almost inevitable Vann notes that this purist approach to Islam is certainly not universal among Muslims and there are many varying interpretations that are more moderate in outlook Nonetheless the undeniable theological background of all Muslim communities colors their values and attitudes and must be taken into consideration when attempting to understand the potential conflicts between contiguous Muslim and non Muslim groups Given the fact that the population of Muslim immigrants is growing in traditionally Christian and increasingly secular countries of the Western world while the resident populations are either stagnant or declining Vann's insightful analysis of the ways in which Islam influences perceptions of community and geography is of great relevance     **Open Educational**
