

A detailed, colorful illustration of intestinal villi, showing the characteristic finger-like projections of the mucosal lining. The villi are depicted in shades of blue, green, and red, with a central red spot in each, likely representing a blood vessel. The background is dark, making the villi stand out. The illustration is framed by a wavy, irregular border.

Anatomy And Physiology : Designed As Per NEP 2020 Guidelines-An Ideal Textbook For B.A Physical Education Students Dr. Neeru Malik, Dr. Kulbir Singh, Dr. Nirlep Kaur Deol, Anatomy and Physiology offers a clear and comprehensive exploration of the human body, blending scientific accuracy with accessible presentation. Structured into three well defined units, the book begins with the organization of the human body, introducing the fundamentals of anatomy and physiology, the structure and functions of cells, the diversity of tissues and the skeletal framework including joints and their roles in movement and support. The second unit delves into essential body systems covering the muscular, digestive and circulatory systems along with an in depth study of blood composition and function. The third unit continues with the respiratory, excretory, endocrine and nervous systems, offering integrated insights into their structure, physiology and interconnections. Ideal for students of health sciences, physical education and allied fields, this book serves as both a foundational reference and a practical guide, fostering a deep understanding of the body's remarkable design and functions.
