is the angel here Have you ever seen an angel In which world would an angel be dark in complexion She always had low self-esteem about her complexion which I had fallen for In my world Divya I exclaimed Is love truly worth the sacrifice or is letting go the greatest act of love Koushik Joshi a school teacher has never had the chance to say I love you Every time he is on the verge of confessing life throws an unexpected twist stealing his moments of happiness In the heart of his struggle there is Abhinaya colleague unknowingly falling for him unaware of the painful past he carries On Koushik's birthday Abhinaya takes a bold step by sneaking a peek into his personal diary and discovers a hidden chapter of his life a story of a deep tragic love where she uncovers the poignant tale of his lost love Divya leading her to make an unimaginable sacrifice When Koushik was on the verge of moving on and accepting a life with Abhinaya by confessing his feelings Divya unexpectedly reappears invited by Abhinaya on Annual Day celebration who believes that reuniting them might offer Koushik the closure he needs unaware of the new feelings Koushik has developed for her Torn between the past and the present Koushik faces an impossible choice will he embrace the love that once was or open his heart to the love that could be Is love always unfair or just that it can't be fair in everyone's story Why is it so complicated to say I love you when you love so much In a world where love demands sacrifice will Koushik Abhinaya and Divya find happiness by letting go or will they forever be haunted by the love they lost

*Inside-Out Smanu, 2014-08-21* This book is a speck of fire from man's inherent quest to be at a perfect self-contented oneness with nature Today's rat race towards technological development might have thrust man to lack awareness of that quest In fact the human journey and conditioning itself has an inherent character of making him lack awareness of his pristine aspects This book is a humble effort in reminding man of his own quest in facilitating him to get in touch with the truth long suppressed and forgotten The growing imbalance in the society is finding its expression not merely as the materialistic gap between haves and have-nots but also in the form of Kundalini Consciousness Awakening in more and more people The spiritual deficit of the human collective is manifesting as spiritual burden on some We know the many scientific laws of conservation don't we Among other things the book propounds a possibility that our incapacity to comprehend God might be the limitation of human evolution as of now As much as the book talks about God Spirituality and Mysticism the book is more an effort in questioning the sufficiency of science for current needs of human evolution Time has come for man to expand his horizons not through Technology but by regaining his roots of spiritual strength and in the process expand the horizons of science No development can be linear and no one instrument can prove self-sufficient for human evolution In that sense Science has reached its threshold Yet Science with Heart is waiting to be discovered and explored through the reinstatement of Trinity and Balance in the world This book might not contain any new spiritual talk or wisdom for the spiritually inclined But it might make a very interesting read for those who are not spiritually inclined yet And when we realize that the term spiritually inclined is a misnomer for we are the spirit the purpose behind this book would have been fulfilled
