Grow beyond the edge

Business leaders recognize that today's opportunities for profitable growth lie at the edge of the enterprise, where your organization makes contact with its community of business partners. After years of investing to build up your internal IT infrastructure, it is time for you to complete the picture by extending and integrating your existing infrastructure into the expanded value chain outside your enterprise. The ability to capitalize on this new growth opportunity is what distinguishes winners from mere survivors in the highly competitive and rapidly evolving global economy.

But how do you enhance your reach, vision and control at – and beyond – the edge of your enterprise?

Diversity is the reality

Today, almost every business operates in a complex business environment within an extended value chain, composed of customers, suppliers, partners, distributors and even competitors. Among all of the challenges you face in this demanding situation, diversity is one of the toughest and most persistent. In the B2B world, businesses are constantly facing roadblocks from partner diversity, system diversity, standards diversity and geographical/cultural diversity.
