Djakhongir Saidov,2019 This thorough and detailed Research Handbook explores the complexity of governance of sales contracts in the modern world It examines many topical aspects of sales law and practice with considerable emphasis being placed on the diversity of commercial and transactional contexts in which sales contracts are made and performed including digital technologies long term contracts and global supply chains and sources governing such contracts particularly those emanating from commercial players such as standard form contracts trade usages and trade terms Written by leading experts from an international and comparative perspective the Research Handbook is relevant to anyone with an interest in commercial sales and contract law (Non-)conformity in the 1980 UN Convention on Contracts for the International Sale of Goods Sonja Kruisinga,2004 The 1980 UN Convention on Contracts for the International Sale of Goods CISG unifies the law governing the rights and obligations arising from a contract for the international sale of goods for the seller and the buyer The CISG entered into force on 1 January 1988 The current number of 62 contracting States representing two thirds of

the world trade shows the relevance of this Convention Moreover the International Chamber of Commerce ICC has published a model for an international sales contract that presupposes the application of the Convention Since no supranational court exists to safeguard a uniform interpretation of its provisions the case law from different states on the basis of the CISG needs to be compared One of the main obligations for the seller under the Convention is to deliver goods which are in conformity with the contract art 35 CISG With respect to this particular obligation a number of questions have arisen For example do the goods delivered need to comply with any public law requirements in the country where the goods will be used When and how does a buyer have to give notice to the seller of any lack of conformity Is any fault on the part of the seller required for a buyer to be able to rely on this provision Who bears the burden of proof Can a buyer rely on any concurrent claims based on national law alongside his claim based on lack of conformity This book contains an analysis of the case law that has been established on the basis of the CISG concerning the aforementioned questions Special attention has been paid to court decisions in Austria Belgium France Germany the Netherlands and Switzerland as well as to arbitral awards by the ICC Court of Arbitration In this respect the role of the UNIDROIT Principles of International Commercial Contracts in the interpretation of the CISG has also been analysed The book provides a unique combination because it contains both an analysis of the issue of non conformity as such and an overview of the recent case law on this topic as well as recommendations for international commercial practice Therefore this book will be of interest to both academics and legal practitioners

their enforcement in a foreign jurisdiction An adroit combination of contract theory and contract practice the book continues to provide guidance to law practitioners and students alike International Contracting is an excellent single volume reference that highlights the different issues relating to a variety of contracts I recommend it to drafting attorneys writing domestic as well as transborder contracts Christopher E Howard complex commercial transactions and development projects Managing Partner Pierce Atwood LLP Portland Maine The latest edition of Professor DiMatteo s International Contracting constitutes a broad yet detailed coverage of international contract law and laws as well as international practice It drills down into the level of detail that supplies invaluable practical guidance of the sort not to be found in other publications Professor Michael G Bridge London School of Economics International Contracting is an ideal source for practitioners whether of the civil or common law It also provides a concise review of international contracting issues and practices for the scholar and student interested in this area of law I highly recommend it as a general resource on the topic Michel Cannarsa Dean Professor Lyon Catholic University *The Harmonisation of the International Sale of Goods through Principles of Law and Uniform Rules* Jorge Balmaceda,2020-04-02 This book describes how the international sales of goods have generally been ruled by either English Law or Civil Law which has often posed problems due to different approaches regarding certain principles and institutions It clarifies how the Vienna Convention on Contracts for the International Sale of Goods of 11th April 1980 tried to harmonise these differences with a codification technique typical of civil law giving privilege to rules of civil law most of the time but also introducing institutions from common law that are not incompatible with civil law It explains why the general principles of civil law and of UNIDROIT help with this goal of harmonisation integrating the loopholes of the UN Convention on Contracts for the International Sale of Goods CISG during its interpretation The work demonstrates why codification prevails over common law in the CISG most of the time giving certitude and sophistication to this matter which is vital for global commerce [Dalhuisen on Transnational Comparative, Commercial, Financial and Trade Law Volume 2](#) Jan H Dalhuisen,2013-06-27 This is the fifth edition of the leading work on transnational and comparative commercial and financial law covering a wide range of complex topics in the modern law of international commerce finance and trade As a guide for students and practitioners it has proven to be unrivalled Since the fourth edition the work is now divided into three volumes each of which can be used independently or as part of the complete work Volume one covers the roots and foundations of private law the different orientations and structure of civil and common law the concept forces and theoretical basis of the transnationalisation of the law in the professional sphere the autonomous sources of the new law merchant or modern lex mercatoria its largely finance driven impulses and its relationship to domestic public policy and public order requirements Volume two deals with transnational contract movable and intangible property law Volume three deals with financial products and financial services with the structure and operation of modern commercial and investment banks and with financial risk stability and regulation including the fall out from the recent financial crisis and regulatory responses in the US
