**Churchill and Orwell** Thomas E. Ricks, 2017-05-23 A New York Times bestseller A New York Times Book Review

Notable Book of 2017 A dual biography of Winston Churchill and George Orwell who preserved democracy from the threats of authoritarianism from the left and right alike Both George Orwell and Winston Churchill came close to death in the mid 1930s Orwell shot in the neck in a trench line in the Spanish Civil War and Churchill struck by a car in New York City If they died then history would scarcely remember them At the time Churchill was a politician on the outs his loyalty to his class and party suspect Orwell was a mildly successful novelist to put it generously No one would have predicted that by the end of the 20th century they would be considered two of the most important people in British history for having the vision and courage to campaign tirelessly in words and in deeds against the totalitarian threat from both the left and the right In a crucial moment they responded first by seeking the facts of the matter seeing through the lies and obfuscations and then they acted on their beliefs Together to an extent not sufficiently appreciated they kept the West's compass set toward freedom as its due north It's not easy to recall now how lonely a position both men once occupied By the late 1930s democracy was discredited in many circles and authoritarian rulers were everywhere in the ascent There were some who decried the scourge of communism but saw in Hitler and Mussolini men we could do business with if not in fact saviors And there were others who saw the Nazi and fascist threat as malign but tended to view communism as the path to salvation Churchill and Orwell on the other hand had the foresight to see clearly that the issue was human freedom that whatever its coloration a government that denied its people basic freedoms was a totalitarian menace and had to be resisted In the end Churchill and Orwell proved their age's necessary men The glorious climax of Churchill and Orwell is the work they both did in the decade of the 1940s to triumph over freedom's enemies And though Churchill played the larger role in the defeat of Hitler and the Axis Orwell's reckoning with the menace of authoritarian rule in *Animal Farm* and *1984* would define the stakes of the Cold War for its 50 year course and continues to give inspiration to fighters for freedom to this day Taken together in Thomas E Ricks's masterful hands their lives are a beautiful testament to the power of moral conviction and to the courage it can take to stay true to it through thick and thin Churchill and Orwell is a perfect gift for the holidays

**Prairie Forge** James J. Kimble, 2014-05-01 After Pearl Harbor a shortage of steel quickly slowed the American arms buildup The country needed scrap metal This is the story of the great Nebraska scrap drive of 1942 that provided a template for the national drive *Crimea, Global Rivalry, and the Vengeance of History* Hall Gardner, 2016-04-30 Gardner examines the causes and consequences of Russia's annexation of Crimea By analyzing alliance formations and the consequences of other annexations in world history the book urges an alternative US NATO European Japanese strategy toward both Russia and China in the effort to prevent a renewed arms race if not global war *The Second World Wars* Victor Davis Hanson, 2017-10-17 A breathtakingly magisterial account of World War II by America's preeminent military historian Wall Street Journal World War II was the most lethal conflict in human history Never before had a war been fought on so many

diverse landscapes and in so many different ways from rocket attacks in London to jungle fighting in Burma to armor strikes in Libya The Second World Wars examines how combat unfolded in the air at sea and on land to show how distinct conflicts among disparate combatants coalesced into one interconnected global war Drawing on 3 000 years of military history bestselling author Victor Davis Hanson argues that despite its novel industrial barbarity neither the war s origins nor its geography were unusual Nor was its ultimate outcome surprising The Axis powers were well prepared to win limited border conflicts but once they blundered into global war they had no hope of victory An authoritative new history of astonishing breadth The Second World Wars offers a stunning reinterpretation of history s deadliest conflict The Morality of Self-Defense and Military Action David B. Kopel,2017-02-16 Shedding new light on a controversial and intriguing issue this book will reshape the debate on how the Judeo Christian tradition views the morality of personal and national self defense Are self defense national warfare and revolts against tyranny holy duties or violations of God s will Pacifists insist these actions are the latter forbidden by Judeo Christian morality This book maintains that the pacifists are wrong To make his case the author analyzes the full sweep of Judeo Christian history from earliest times to the present combining history scriptural analysis and philosophy to describe the changes and continuity of Jewish and Christian doctrine about the use of lethal force He reveals the shifting patterns of thought in both religions and presents the strongest arguments on both sides of the issue The book begins with the ancient Hebrews and Genesis and covers Jewish history through the Holocaust and beyond The analysis then shifts to the story of Christianity from its origins through the Middle Ages and the Reformation up the present day Based on this scrutiny the author concludes that contrary to popular belief the legitimacy of self defense is strongly supported by Judeo Christian scripture and commentary by philosophical analysis and by the respect for human dignity and human rights on which both Judaism and Christianity are based Contrafactuales Richard Evans,2020-04-28 Gran Bretaña no participa en la Segunda Guerra Mundial Hitler conquista Moscú Churchill pierde las elecciones y nunca llega a convertirse en primer ministro La historia alternativa siempre ha sido un divertimento una excusa para los juegos de mesa o un argumento para la ciencia ficción pero en las últimas décadas ha empezado a llamar también la atención de los historiadores más serios Por qué Si la labor de la historia es establecer qué ocurrió qué sentido tiene preguntarse por lo que pudo haber sido Evans examina con ojo crítico la nueva afición de los historiadores y de los lectores por los contrafactuales atendiendo tanto a su importancia para la comprensión de la historia como a los motivos ocultos de los académicos para explorar esta faceta **Je suis Adèle Wolfe** Ryan Graudin,2016-09-07 1956 Le IIIe Reich et l'Empire du Japon gouvernent le monde Afin de commémorer la victoire des forces de l'Axe sur le Royaume-Uni et la Russie Hitler et l'empereur Hirohito organisent chaque année une grande course de moto entre leurs deux continents Le gagnant remporte une entrevue privée avec le Führer lors du bal de la Victoire Yael une survivante des camps n'a qu'un but dans la vie gagner cette course et tuer Hitler Pour parvenir ses fins elle décide de se faire passer pour la gagnante de l'année précédente Adèle Wolfe L'affaire se corse lorsque le frère et l'

**Altered Pasts** Richard J. Evans, 2014-02-04 A bullet misses its target in Sarajevo a would be Austrian painter gets into the Viennese academy Lord Halifax becomes British prime minister in 1940 instead of Churchill seemingly minor twists of fate on which world shaking events might have hinged Alternative history has long been the stuff of parlor games war gaming and science fiction but over the past few decades it has become a popular stomping ground for serious historians The historian Richard J Evans now turns a critical slightly jaundiced eye on a subject typically the purview of armchair historians The book's main concern is examining the intellectual fallout from historical counterfactuals which the author defines as alternative versions of the past in which one alteration in the timeline leads to a different outcome from the one we know actually occurred What if Britain had stood at the sidelines during the First World War What if the Wehrmacht had taken Moscow The author offers an engaging and insightful introduction to the genre while discussing the reasons for its revival in popularity the role of historical determinism and the often hidden agendas of the counterfactual historian Most important Evans takes counterfactual history seriously looking at the insights pitfalls and intellectual implications of changing one thread in the weave of history A wonderful critical introduction to an often overlooked genre for scholars and casual readers of history alike
