Owen, Jr., 2012-01-01 Can we have more teacher intellectuals in our classrooms This book demonstrates that we can But many things have to change before intellectual standards appear again in public schools David Owen attempts to show but not in outline form how we can revise our schools Can we escape the rut in which public education finds itself dominated by the inane tests the stifling reduction of school to job training and the insane transformation of a life affirming odyssey of the mind to cliché's information gathering and slogans We can reclaim the beauty of an education if we join David and revise our classrooms Education is uncertain risky wonderfully adventurous yet schooling has become stale No tediously dreadful There is a need to revise Reject standardized tests Repeal pay for performance Eject No Child Left Behind before no child has a thoughtful mind left It is time to revise and David's book explains why Are we still interested in the mind soul and substance of the individual Does it matter who we are and become or just what we do If these questions still matter dwell carefully with David's ideas and transform yourself your students school community state nation and world It is time to revise them all John A Weaver Georgia Southern University

B. Yeats's Poetry Özlem Saylan,2019-01-17 Carrying a story to tell is the ancient burden of craftsmen and it is one of the characteristics of the quest to find oneself since a journey requires recognition of the aspects of self and anti self Like the speaker of his poems W B Yeats has something to tell His poetry draws nourishment from the battle between the dichotomies of self and anti self human and divine mind and intellect past and present and body and soul This book covers a selection of Yeats s poems from 1889 to 1939 discussing them within the frame of the quest to find oneself

and its gyroscopic transformation The book illustrates that self is not a single entity but has multiple layers and it can be found within the quest in which it experiences a simultaneous transformation with every phase of the antithetical structure of gyroscopic movements In addition the way of the quest is cyclical however it is not a vicious cycle since in life every end is a phase of a beginning and every beginning is a phase of an end Margaret Atwood Shannon Hengen,Ashley

Walls,William

Irwin,2013-11-13 The Chronicles of Narnia series has entertained millions of readers both children and adults since the appearance of the first book in 1950 Here scholars turn the lens of philosophy on these timeless tales Engagingly written for a lay audience these essays consider a wealth of topics centered on the ethical spiritual mythic and moral resonances in the adventures of Aslan the Pevensie children and the rest of the colorful cast Do the spectacular events in Narnia give readers a simplistic view of human choice and decision making Does Aslan offer a solution to the problem of evil What does the

Hedrick, 2016-06-10 Hedrick contends that parables do not teach moral and religious lessons

they are not in whole or part theological figures for the church Rather parables are realistic narrative fictions that like all effective fiction literature are designed to draw readers into story worlds where they make discoveries about themselves by finding their ideas challenged and subverted or affirmed The parables have endings but not final resolutions because the endings raise new complications for careful readers which require further resolution The narrative contexts and interpretations supplied by the evangelists constitute an attempt by the early church to bring the secular narratives of Jesus under the control of the church's later religious perspectives Each narrative represents a fragment of Jesus's secular vision of reality Finding himself outside the mainstream of parables scholarship both ecclesiastical and critical Hedrick explored a literary approach to the parables in a series of essays that among other things set out the basic rationale for a literary approach to the parables of Jesus These early essays form the central section of the book They are published here in edited form along with unpublished critiques of a thoroughgoing literary approach and his response

Unmasking Biblical Faiths Charles W. Hedrick, 2019-01-11 Unmasking Biblical Faiths aims to address many of the challenges to traditional Christian faith in the modern world Since the eighteenth century Age of Enlightenment human reason formerly tethered by the constraints of organized religion has been set free to explore the universe relatively unchallenged The influence of the Bible on the other hand weakened due to the successes of modern historical criticism is found to be inadequate for the task of enabling the faith once for all delivered to the saints Jude 3 in that it cannot adequately respond to the many questions about religious faith that human reasoning raises for modern human beings In a series of short but tightly reasoned essays Charles Hedrick explores the confrontation between traditional Christian faith and aggressive human reason a conflict that is facilitated by Western secular education

The Characterization of Jesus in the Book of Hebrews Brian Small, 2014-01-30 In The Characterization of Jesus in the Book of Hebrews Brian Small applies the tools of literary and rhetorical criticism to reconstruct the author of Hebrew's portrayal of Jesus character The author of Hebrews uses a variety of literary and rhetorical devices in order to develop his characterization of Jesus The portrait that emerges is that Jesus is a person of exemplary character who exhibits both divine and human character traits Some of the traits reveal Jesus' greatness while others reveal his moral excellence Jesus' exemplary character plays a prominent role in the author's argument and has profound implications for his audience Jesus' character produces many benefits for his followers and his character entails certain obligations from his followers

The Wisdom of Jesus Charles W. Hedrick, 2017-04-27 How would our understanding of Jesus change if we abandoned our preconceptions and focussed on his words alone How would this wisdom compare with that of ancient Israel and the early first century church Such questions pose serious difficulties Everything in the early Christian gospels is either derived from historical memory or is borrowed or invented argues Charles W. Hedrick Of the many sayings attributed to Christ historians can only agree on a few as having been spoken by him and those few are far from certain In The Wisdom of Jesus Hedrick overcomes these challenges presenting a picture of Jesus as expressed through

his own words The Jesus that emerges is a lower class man of the first century a complex figure who cannot be considered religious in a traditional sense Liberated from theological explanation and interpretation his discourse is revealed as belonging to the secular world and his concerns to be those of common life Novel Preaching Alyce M.

McKenzie,2010-02-01 In this lively and accessible book Alyce McKenzie explores how fiction writers approach the task of writing novels how they develop their ideas where they find their inspiration and how they turn the spark of a creative notion into words on paper that will captivate the masses McKenzie s study shows how preachers can use the same techniques to enhance their own creativity and to turn their ideas into powerful well crafted sermons Novel Preaching offers a wealth of advice from successful fiction writers including Isabelle Allende Frederick Buechner Julia Cameron Annie Dillard Natalie Goldberg Stephen King Toni Morrison Joyce Carol Oates and Melanie Rae Thorn and also includes a number of sample sermons from McKenzie herself **An Introduction to Chinese Poetry** Michael Fuller,2020-10-26 This innovative

textbook for learning classical Chinese poetry moves beyond the traditional anthology of poems translated into English and instead brings readers including those with no knowledge of Chinese as close as possible to the texture of the poems in their original language The first two chapters introduce the features of classical Chinese that are important for poetry and then survey the formal and rhetorical conventions of classical poetry The core chapters present the major poets and poems of the Chinese poetic tradition from earliest times to the lyrics of the Song Dynasty 960 1279 Each chapter begins with an overview of the historical context for the poetry of a particular period and provides a brief biography for each poet Each of the poems appears in the original Chinese with a word by word translation followed by Michael A Fuller s unadorned translation and a more polished version by modern translators A question based study guide highlights the important issues in reading and understanding each particular text Designed for classroom use and for self study the textbook s goal is to help the reader appreciate both the distinctive voices of the major writers in the Chinese poetic tradition and the grand contours of the development of that tradition
