Teams in Government Jerry W. Koehler, 1996-03-14 Like American business executives many government leaders realize that a continuation of the traditional management of objectives approach will achieve failure Those willing to change are searching for a new approach to managing government The authors of Teams in Government believe the best approach is Total Quality Management TQM Why TQM Because it consists of gradual unending improvement activities that involve every person in the organization in a totally integrated effort to improve performance and quality at every level and to increase customer satisfaction The government has two types of customers the person who receives the benefits of its services and the taxpayer who supplies the money to fuel an efficient and effective operation If you are looking for the tools and techniques that will enable you to deliver government services that not only meet but exceed the expectations of your customers to do it right the first time you need Teams in Government Any government organization that wants to switch from focusing solely upon meeting the needs of the bureaucracy primarily on meeting objectives and quotas designed by the upper echelon who are furthest from your customers will find TQM to be extremely effective

Charting Change Braden Kelley, 2016-03-31 Research shows that up to seventy percent of all change initiatives fail Let's face it change is hard as is getting an organization on board and working through the process One thing that has been known to be effective is onboarding teams not only to understand this change but to see the process and the progress of institutional change

Charting Change will help teams and companies visualize this complicated process Kelley has developed the Change Planning Canvas which enables leadership and project teams to easily discuss the variable that will influence the change effort and organize them in a collaborative and visual way It will help managers build a cohesive approach that can be more easily embraced by employees who are charged with the actual implementation of change This book will teach readers how to use this visual toolkit to build a common language and vision for implementing change **Transformation of**
