Popular Music Will Not Save Us Lauren K. Richerme, 2025-05-27 In today's globalized landscapes both traditional and progressive K 12 music education practices including those associated with popular music can further capitalism related inequities In this context music educators and students might consider how they position themselves and their music making practices in relation to capitalist aims and processes and confront the more unethical aspects of capitalism Popular Music Will Not Save Us challenges music educators to rethink their philosophical stances in the face of contemporary capitalist values and explores the intersection of music education and globalized capitalism unveiling how certain practices exacerbate material inequities and erode social responsibility As author Lauren Kapalka Richerme unravels the complexities of music education her analysis sheds light on how prevalent practices can inadvertently uphold capitalist ideals and reinforce individualism unceasing accumulation and precarity in the workforce Given that no musical genre inherently challenges problematic aspects of capitalism Richerme proposes that music educators instead focus on affective flows or the circulation of sensations within pedagogical spaces and consider four alternative positionalities thriving within surviving under resisting and challenging capitalism Popular Music Will Not Save Us advocates for a shift away from capitalistic individualism and inequities and toward a more equitable affective pedagogical mode Now is the time to transcend traditional boundaries and embrace a new paradigm that prioritizes social impact over commercial gain The World Is Our Classroom Cindy Ross, 2018-09-11 Bronze Medal Lowell Thomas Travel Journalism Competition Society of

American Travel Writers Cindy Ross is one of today's most eloquent and thoughtful writers on the connection between humans and the natural world. Richard Louv, New York Times bestselling author, Cindy's story begins in the Rocky Mountain wilderness on a unique and extraordinary journey: two parents leading their young children 3,100 miles on the backs of llamas. This Canada-Mexico trek illustrated to Cindy and her husband what experiential education can do. Inspired by the experience, they went on to create a new way of supplementing their children's education, focusing on two arenas for learning: the natural world and travel. In this age of world connection, it is important to raise broad-minded and empathetic children who are knowledgeable about other cultures. To accomplish this goal, Cindy chose an unorthodox approach: she orchestrated learning opportunities for her children, Sierra and Bryce, in twelve countries. The family traveled the world moving about on foot and bicycle, living simply and intimately. But just as important and more accessible for many parents were the opportunities for learning closer to home. These adventures brought intangible gifts: values such as compassion, empathy, resilience, self-reliance, and gratitude, among others, not always fostered in a traditional curriculum but crucially important to raising children. By sharing her story along with honest insights from her children about the importance of their unusual education, Cindy aims to empower parents to believe they can be their children's best and most important educators. It is for parents who are seeking inspiration, who love a good story, and who are looking for an unorthodox way to raise the happiest, healthiest, and brightest children they can.

Playing Games Randolph Feezell, 2016-10-26 What is sport? Why does sport matter? How can we use philosophy to understand what sport means today? This engaging and highly original introduction to the philosophy of sport uses dialogue, a form of philosophical investigation, to address the fundamental questions in sport studies and to explore key contemporary issues such as fair play, gender, drug use, cheating, entertainment, and identity. Providing a clear, informative, and accessible introduction to the philosophy of sport, every chapter includes current sporting examples as well as review questions and guides to further reading. The dialogue form enables students to engage in debate and raise questions while encouraging them to think from the perspectives of athlete, coach, spectator, and philosopher. The issues raised present real and complex ethical dilemmas that relate to a variety of sports from around the world, such as soccer, athletics, baseball, basketball, hockey, and tennis.
