

Displacement and Distance

- **Displacement** describes the **straight-line distance** and direction from one point to another.
 - ♦ Displacement describes how much an object's position has changed.
- Displacement is equal to the final position minus the initial position: $\Delta \vec{d} = \vec{d}_f - \vec{d}_i$
- The SI unit for displacement is meters, m.

Between 2 s and 5 s the skateboarder's displacement is 5 m [E]. The skateboarder's distance travelled is 5 m.

American Grand Strategy and Corporate Elite Networks Bastiaan Van Apeldoorn, Naná de Graaff, 2015-10-23 This book presents a novel analysis of how US grand strategy has evolved from the end of the Cold War to the present offering an integrated analysis of both continuity and change The post Cold War American grand strategy has continued to be oriented to securing an open door to US capital around the globe This book will show that the three different administrations that have been in office in the post Cold War era have pursued

this goal with varying means from Clinton's promotion of neoliberal globalization to Bush's war on terror and Obama's search to maintain US primacy in the face of a declining economy and a rising Asia. In seeking to make sense of both these strong continuities and these significant variations the book takes as its point of departure the social sources of grand strategy making with the aim to relate state public power to social private power. While developing its own theoretical framework to make sense of the evolution of US grand strategy it offers a rich and rigorous empirical analysis based on extensive primary data that have been collected over the past years. It draws on a unique data set that consists of extensive biographical data of 30 cabinet members and other senior foreign policy officials of each of the past three administrations of Clinton, G. W. Bush and Obama. This book is of great use to specialists in International Relations within International Political Economy, International Security and Foreign Policy Analysis as well as students of US Politics.
