Post-Impressionists in England Barrie Bullen, 2024-03-08 First Published in 1988 Post impressionists in England documents the response of English taste to modern French art from the first Post Impressionist Exhibition in 1910 to the outbreak of the First World War The notion of Post Impressionism unlike its earlier counterpart Impressionism was an exclusively English contribution to art history Originally used to denote the work of Cezanne Van Gogh Gauguin Matisse and the Fauve painters it rapidly assimilated Futurism Cubism and recent English work like Vorticism By focusing on one aspect of an important and complex period in British cultural history J B Bullen illuminates not only aesthetic questions but also the way in which those aesthetic issues were determined and conditioned by social and political concerns Changes in English attitudes to art in this period were so rapid and were modified with such speed that the author has taken a strictly chronological approach to the subject He sets out clearly the month by month developments in English attitudes and traces in detail the debates about modernism

in England To make matters clearer the book is divided into three major parts each complementary to the others The introduction surveys the period as a whole and places attitudes to art in the general context of the culture of the time In the second part the extracts provide selected concrete and particular examples of the huge range of material upon which the findings of the introduction are based the writers represented include Roger Fry Bernard Berenson Desmond McCarthy John Singer Sargent Walter Sickert Clive Bell Virginia Woolf and Wyndham Lewis In the third part a chronology sets out in tabular form month by month events exhibitions and major publications as they occurred in Britain and in France This is a must read for scholars and researchers of British cultural history and art history

Modern Art Invasion Elizabeth Lunday,2013-09-27 The story of the most important art show in U.S. history Held at Manhattan's 69th Regiment Armory in 1913 the show brought modernism to America in an unprecedented display of 1300 works by artists including Picasso Matisse and Duchamp A quarter of a million Americans visited the show most couldn't make sense of what they were seeing Newspaper critics questioned the artists' sanity A popular rumor held that the real creator of one abstract canvas was a donkey with its tail dipped in paint The Armory Show went on to Boston and Chicago and its effects spread across the country American artists embraced a new spirit of experimentation as conservative art institutions lost all influence New modern art galleries opened to serve collectors interested in buying the most progressive works Over time the stage was set for American revolutionaries such as Jackson Pollock Mark Rothko Roy Lichtenstein and

Andy Warhol Today when museums of modern and contemporary art dot the nation and New York reigns as art capital of the universe we live in a world created by the Armory Show Elizabeth Lunday author of the breakout hit *Secret Lives of Great Artists* tells the story of the exhibition from the perspectives of organizers contributors viewers and critics Brimming with fascinating and surprising details the book takes a fast paced tour of life in America and Europe peering into Gertrude Stein's famous Paris salon sitting in at the fabulous parties of New York socialites and elbowing through the crowds at the Armory itself
