in classical Confucianism and Roman Stoicism as well as the alternatives to forgiveness that these rich philosophical traditions offer. After discussing forgiveness as it is understood in contemporary philosophy, Sean McAleer explores Confucius' vocabulary for and attitude toward anger and resentment, arguing that Confucius does not object to anger but to its excesses. While Confucius does not make room for forgiveness, McAleer argues that Mencius cannot do so given the distinctive twist he gives to self-examination in response to mistreatment. Xunzi, by contrast, leaves open a door to forgiveness that Mencius bolted shut. The book then proceeds to the Roman Stoics: Musonius Rufus, Epictetus, Marcus Aurelius, and Seneca, arguing that their distinctive conceptions of value and wellbeing rule out forgiveness, though like the Confucians, the Stoics offer alternatives to forgiveness well worth considering. The book ends by comparing the two traditions, arguing that while Stoicism helps us navigate many of the turbulent waters of everyday life, Confucianism enjoys advantages when we interact with those to whom we are bound by ties of affection and intimacy.

Dharma and Halacha Ithamar Theodor, Yudit Kornberg Greenberg, 2018-08-15

In recent decades, there has been a rising interest among scholars of Hinduism and Judaism in engaging in the comparative studies of these ancient traditions. Academic interests have also been inspired by the rise of interreligious dialogue by the respective religious leaders. *Dharma and Halacha: Comparative Studies in Hindu Jewish Philosophy and Religion* represents a significant contribution to this emerging field, offering an examination of a wide range of topics and a rich diversity of perspectives and methodologies within each tradition and underscoring significant affinities in textual practices, ritual, purity, sacrifice, ethics, and theology. *Dharma* refers to a Hindu term indicating law, duty, religion, morality, justice, and order, and the collective body of *Dharma* is called *Dharma shastra*. *Halacha* is the Hebrew term designating the Jewish spiritual path, comprising the collective body of Jewish religious laws, ethics, and rituals. Although there are strong parallels between Hinduism and Judaism in topics such as textual practices and mystical experience, the link between these two religious systems, i.e., *Dharma* and *Halacha*, is especially compelling and provides a framework for the comparative study of these two traditions. The book begins with an introduction to Hindu Jewish comparative studies and recent interreligious encounters. Part I of the book, titled *Ritual and Sacrifice*, encompasses the themes of sacrifice, holiness, and worship. Part II, titled *Ethics*, is devoted to comparing ethical systems in both traditions, highlighting the manifold ways in which the sacred is embodied in the mundane. Part III of the book, titled *Theology*, addresses common themes and phenomena in spiritual leadership as well as textual metaphors for mystical and visionary experiences in Hinduism and Judaism. The epilogue offers a retrospective on Hindu Jewish encounters, mapping historic as well as contemporary academic initiatives and collaborations.

Justice and Harmony Joshua Mason, 2022-08-16

Justice and harmony have long been two of the world's most treasured ideals, but much of modern moral and political philosophy puts them on opposite sides of the divide between liberal theories of the right and communitarian theories of the good. Joshua Mason argues that the encounter with their Chinese counterparts, *zhengyi* and *hexie*, can overcome this opposition, revealing a pattern that reframes justice and harmony.

as mutually interdependent concepts in a three part framework of root harmony benhe harmonic justice heyi and just harmony zhenghe Broadly surveying the histories of western and Chinese moral and political philosophies Justice and Harmony Cross Cultural Ideals in Conflict and Cooperation explores our cross cultural conceptual inventories and develops a comparative framework that can overcome entrenched binary oppositions and reconcile these grand global values

Exile and Otherness Ilana Maymind,2020-06-23 In Exile and Otherness The Ethics of Shinran and Maimonides Ilana Maymind argues that Shinran 1173 1263 the founder of

True Pure Land Buddhism Jodo Shinshu and Maimonides 1138 1204 a Jewish philosopher Torah scholar and physician were both deeply affected by their conditions of exile as shown in the construction of their ethics By juxtaposing the exilic experiences of two contemporaries who are geographically and culturally separated and yet share some of the same concerns this book expands the boundaries of Shin Buddhist studies and Jewish studies It demonstrates that the integration into a new environment for Shinran and the creative mixture of cultures for Maimonides allowed them to view certain issues from the position of empathic outsiders Maymind demonstrates that the biographical experiences of these two thinkers who exhibit sensitivity to the neglected and suffering others resonate with conditions of exile and diasporic living in pluralistic societies that define the lives of many individuals communities and societies in the twenty first century *Plantingian Religious Epistemology and World Religions* Erik Baldwin, Tyler Dalton McNabb, 2018-11-29 To what extent can non Christian religious traditions utilize Plantinga's epistemology And if there are believers from differing religious traditions that can rightfully utilize Plantinga's religious epistemology does this somehow prevent a Plantingian's creedal specific religious belief from being warranted In order to answer these questions Baldwin and McNabb first provide an introduction to Plantinga's religious epistemology Second they explore the prospects and problems that members of non Christian religions face when they attempt to utilize Plantingian religious epistemology Finally they sketch out possible approaches to holding that a Plantingian's creedal specific religious belief can be warranted even given believers from other religious traditions who can also rightfully make full use of Plantinga's religious epistemology Three Pillars of Skepticism in Classical India Ethan Mills, 2018-09-15 Beginning with the earliest strata of Indian philosophy this book uncovers a distinct tradition of skepticism in Indian philosophy through a study of the three pillars of Indian skepticism near the beginning middle and end of the classical era Nagarjuna c 150 200 CE Jayarasi c 770 830 CE and Sri Har a c 1125 1180 CE Moving beyond the traditional school model of understanding the history of Indian philosophy this book argues that the philosophical history of India contains a tradition of skepticism about philosophy represented most clearly by three figures coming from different schools but utilizing similar methods Nagarjuna Jayarasi and Sri Har a This book argues that there is a category of skepticism often overlooked by philosophers today skepticism about philosophy varieties of which are found not only in classical India but also in the Western tradition in Pyrrhonian skepticism Skepticism about philosophy consists of intellectual therapies for those afflicted by the quest for dogmatic beliefs The book begins with the roots of this type of skepticism in ancient India in the g Veda Upani ads and early Buddhist texts Then there are two chapters on each of the three major figures one chapter giving each philosopher's overall aims and methods and a second demonstrating how each philosopher applies these methods to specific philosophical issues The conclusion shows how the history of Indian skepticism might help to answer philosophy's detractors today while skeptics demonstrate that we should be modest about philosophy's ability to produce firm answers philosophy nonetheless has other uses such as cultivating critical thinking skills and lessening dogmatism This book is

situated within a larger project of expanding the history of philosophy Just as the history of Western philosophy ought to inform contemporary philosophy so should expanding the history of philosophy to include classical India illuminate understandings of philosophy today its value limits and what it can do for us in the 21st century **Confucian Ritual and Moral Education** Colin J. Lewis,2020-09-30 It is widely accepted that moral education is quintessential to facilitating and maintaining prosocial attitudes What moral education should entail and how it can be effectively pursued remain hotly disputed questions In Confucian Ritual and Moral Education Colin J Lewis examines these issues by appealing to two traditions that have until now escaped comparison Vygotsky s theory of learning and psychosocial development and ancient Confucianism s ritualized approach to moral education Lewis argues first that Vygotsky and the Confucians complement one another in a manner that enables a nuanced empirically sound understanding of how the Confucian ritual education model should be construed and how it could be deployed and second just as ritual education in the Confucian tradition can be explicated in terms of modern developmental theory this ancient notion of ritual can also serve as a viable resource for moral education in a contemporary diverse world **Making Space for Knowing** Aaron B. Creller,2017-12-20 Making Space for Knowing A Capacious Approach to Comparative Epistemology is an intervention in mainstream Western epistemology especially as it relates to theories of knowledge knowing and knowers Through its focus on propositional knowledge contemporary mainstream epistemology has narrowed the scope of the definition of knowledge to a point where it fails to accurately describe the structure of knowing and prevents a genuine understanding of knowledge across different contexts and cultures By drawing on resources in analytic philosophy and hermeneutics Aaron B Creller outlines an approach to comparative epistemology that makes space for the particularity of non Western approaches to knowing It then further develops this model by engaging with classical Chinese philosophy and twentieth century Chinese epistemologists offering a set of best practices for comparative epistemology *Conversations and Transformations* Ananta Kumar Giri,2002-01-01 In this intriguing new book Indian social theorist Ananta Kumar Giri issues a stirring call for scholars of contemporary social theory and practice to grapple with late modernity s most pressing social and political issues Giri counterposes Western thought with Indian social theory in a work that ranges across an array of Indian texts and ideas hitherto ignored by Western scholarship Included along with the mainstays of Indian intellectual thought like Gandhi and Sri Aurobindo are lesser known Indian social theorists economists sociologists and essayists who argue for transcendence of self interest social responsibility and political renewal Thoughtfully argued and lucidly written this work offers the reader a genuine transdisciplinary learning experience going beyond European ethnocentrism to make social theory a truly global conversation **Religion Index Two** ,1992 *Arts & Humanities Citation Index* ,1996 **Philosophical Theology and East-West Dialogue** Hisakazu Inagaki,J. Nelson Jennings,2000 Philosophical Theology and East West Dialogue is a unique philosophical and theological analysis of certain key interactions between Eastern and Western thinkers The book on the one hand contrasts general traits

of Eastern Buddhist thought and Western Greek thought However in doing so it focuses on influential philosophers and theologians who manifest particular instances of wider issues The result is a careful examination of basic questions that offers both broad implications and concrete specificity in its approach The book itself is an instance of East West dialogue Independently of each other both authors had previously engaged in serious cross cultural studies The Japanese Inagaki had researched Western science and philosophy then written in Japanese comparative studies of Japanese thought The North American Jennings had researched Japanese theology They brought these backgrounds together dialoguing with each other until the present study emerged Several creative Japanese thinkers as well as important Westerners are taken up The study follows the lead of many Eastern impulses but it also critically utilizes Western methods Contemporary thinking on religious plurality is carefully examined This new study is a must for those interested in philosophy and theology in general and East West interaction in particular East-West Encounters in Philosophy and Religion Ninian Smart,B. Intersubjectivity, Ethics and Peace Lenart Škof,2015-02-06 This book offers an original contribution towards a new theory of intersubjectivity which places ethics of breath hospitality and non violence in the forefront Emphasizing Indian philosophy and religion Vedas and Upanishads and related cross cultural interpretations it provides new intercultural interpretations of key Western concepts which traditionally were developed and followed in the vein of re conceptualizations or revitalizations of Greek thought as in Nietzsche and Heidegger for example The significance of the book lies in its establishment of a new platform for thinking philosophically about intersubjectivity so as to nudge contemporary philosophy towards a more sensitive approach which is needed in our times Its originality lies in its innovative approach which searches for the origin of ethical gestures represented in respecting the breath breathing through the newly introduced concept of mesocosm as a space of a ritual or a new ethical space of intersubjective encounters The book also introduces the possibility of an original ethics based on breath Intended for philosophers feminists and others concerned with intercultural philosophy and comparative religion the book will appeal to readers interested in contemporary ethical and political theories of peaceful conflict resolution and concepts of hospitality A Breath of Hospitality will benefit all who seek a more sensitive approach in philosophy including philosophy of religion and often neglected practical and educational layers of our everyday intersubjective relations **East and West** Julius Evola,Greg Johnson,2013
