Peter Sculthorpe Faber Music:

Peter Sculthorpe Graeme Skinner, 2015-10-01 Peter Sculthorpe who died in 2014 remains Australia's best known composer and is widely held to be the most important creative musical spirit the country has produced Beautifully written and fastidiously researched this authorised biography provides an insight into Sculthorpe's formative years his quest for personal voice and his arrival through many creative friendships and collaborations at a place in the collective heart of the nation It charts the realisation of a youthful vocation to become not merely a composer but an Australian composer Graeme Skinner's biography is also a social history examining Sculthorpe's unique role in the creation of Australian musical modernism in the 1960s an important era in Australia's cultural evolution

Australia's Jindyworobak Composers David Symons, 2020-11-29 Australia's Jindyworobak Composers examines the music of a historically and artistically significant group of Australian composers active during the later post colonial period 1930s c 1960 These composers sought to establish a uniquely Australian identity through the evocation of the country's landscape and environment including notably the use of Aboriginal elements or imagery in their music texts dramatic scenarios or programmes Nevertheless it must be observed that this word was originally adopted as a manifesto for an Australian literary movement and was for the most part only retrospectively applied by commentators rather than the composers themselves to art music that was seen to share similar aesthetic aims Chapter One demonstrates to what extent a meaningful relationship may or may not be discernible between the artistic tenets of Jindyworobak writers and apparently likeminded composers In doing so it establishes the context for a full exploration of the music of Australian composers to whom Jindyworobak has come to be popularly applied The following chapters explore the music of composers writing within the Jindyworobak period itself and finally the later twentieth century afterlife of Jindyworobakism This will be of particular interest to scholars and researchers of Ethnomusicology Australian Music and Music History

Australian Music and Modernism, 1960-1975 Michael Hooper, 2019-10-31 Drawing on newly available archival material key works and correspondence of the era Australian Music and Modernism defines Australian Music as an idea that emerged through the lens of the modernist discourse of the 1960s and 70s At the same time that the new Australian Music was distinctive of the nation it was also thoroughly connected to practices from Europe and shaped by a new engagement with the music of Southeast Asia This book examines the intersection of nationalism and modernism at this formative time During the early stages of Australian Music there was disagreement about what the idea itself ought to represent and indeed whether the idea ought to apply at all Michael Hooper considers various perspectives offered by such composers as Peter Sculthorpe Richard Meale and Nigel Butterley and analyzes some of the era's significant works to articulate a complex understanding of Australian Music at its inception

The Sounds of Aurora Australis Beatrice Dalov, 2021-01-12 Entrenched until recently in Western aesthetics Australian composers are now developing a functional cultural identity expressed through a distinctly nationalistic musical idiom Its ongoing formation inspired by Australia's

Aboriginal heritage and unique natural environment seeks to distance the nations artistic developments from the geographically remote Occidental regions and emphasize its native cultures Presently however mounting sociopolitical and ethical concerns surrounding the cultural borrowing between Indigenous and non Indigenous peoples are problematizing the developing nationalistic idiom as composers must determine whether the two groups share any legitimate connection beyond mere occupation of the same land given their tense post colonial history Musicologist Beatrice Dalov traces the formation of the Southern Lands cultural identity while simultaneously considering its complex relationship with the nations First Peoples She illuminates the origins influences and developments of Australian art music from colonization late eighteenth century to the present day interweaving the social cultural political and economic forces that shaped and often determined its evolution The history demonstrates that the complex processes of articulating a unique cultural identity began almost immediately after arrival of the first colonists and continues uninterrupted through today Drawing on newly available archival material key works and personally conducted interviews with numerous contemporary composers Dalov traces the history of the lands music from scattered convict settlements and eventful contacts with Aboriginal peoples to the formation of a national musical infrastructure to todays thriving musical independence She brings forward not only the most prominent composers and musicians of the last century but also those who laid a crucial foundation and offered the first contributions toward a national idiom A comprehensive history of the music of the Great Southern Land has been too long neglected by social historians and musicologists worldwide Beatrice Dalov sets the record straight Peter Sculthorpe Faber Music Limited,1979 Diversity in Australia's Music Dorottya Fabian,John Napier,2018-10-30 This volume showcases academic research into the rich diversity of music in Australia from colonial times to the present Starting with an overview of developments during the past 50 years the contributions discuss Western and non western genres opera film dance choral chamber the history of music making in particular cosmopolitan and regional centres Canberra Brisbane the Hunter Valley Alice Springs old new and experimental compositions and a variety of performers and ensembles active at particular points in time In addition cultural tropes and music as social practice are also explored providing a rich tapestry of music and music making in the country The volume thus serves as a model for representing and approaching multicultural musical societies in an inclusive and comprehensive manner **Australian National Bibliography: 1992** National Library of Australia,1988 **National Themes in Australian Opera from Federation to the Bicentenary of European Settlement** David Symons,2024-12-06 This book is concerned with the emergence and pursuit of a defined national consciousnesses as shown in the choice of national subjects and settings in operas by Australian composers from the birth of the nation at Federation 1901 until the Bicentenary of European settlement in 1988 a second watershed date in its development There is presently no book that covers the overall development of Australian composed opera during this period Michael Halliwell s book National Identity in Contemporary Australian Opera Myths Reconsidered treats the operatic scene only after the Bicentenary The targeted

readership is wide from academic and pedagogical undergraduate postgraduate and research to the informed general reader Special interest groups may include opera companies with the hope that it may encourage the performance of many neglected operas as well as the revival of the more notable ones treated in the book **New Directions for Clarinet** Phillip Rehfeldt,1994-01-01 Phillip Rehfeldt has assembled here techniques of dealing with clarinet performances as they have evolved since 1950 He catalogs contemporary practices that differ from those formerly standardized provides perspective on performance capabilities and limitations and includes suggestions for performance based on his own experience The new edition has been completely rewritten corrected where necessary and updated Rehfeldt has added the complete list of William O Smith s clarinet compositions and recordings to the previous listing of his early multiphonic fingerings The new edition also includes an appendix containing Eric Mandat s quarter tone fingerings a second extensive music bibliography the International Update and an updated and annotated bibliography of music literature Katalog der Musikdrucke Bayerische Staatsbibliothek,1990 Australia's Music: Themes of a New Society (2nd ed.) Roger Covell,2016-12-01 Described on its first publication in 1967 as a scholarly account of Australian music that is also entertaining social history Roger Covell s Austrlaia s Music Themes of a New Society has become a classic of Australian music history for its beautifully written explorations of almost two hundred years of music making across classical Indigenous and Anglo Celtic traditions This revised edition including more than sixty musical examples is supplemented by a new postscript written by the author

installations The work of many significant composers is discussed in detail among them Ross Edwards Barry Conyngham David Lumsdaine Anne Boyd and Fritz Hart Throughout the book there is a sense of the vibrancy and diversity of the music inspired by the sights and sounds of the Australian landscape *The Contemporary Guitar* John Schneider,2015-08-20 The Contemporary Guitar traces the extraordinary rise of the instrument in concert music over the past century Though recognized worldwide as a popular music icon the all to recent time when the guitar was looked down upon as a second class citizen in the world of serious music is finally past and it can now be found in the scores of the most important composers The guitar s rightful place in chamber music orchestral music or as a solo instrument is now without question whether in the classic acoustic form or the more recent electric version While the guitar has stood in the vanguard of musical experimentation its many new techniques and notations remain a mystery for many composers and players In The Contemporary Guitar musician and scholar John Schneider explains each class of technique and illustrates them with examples Moreover because the guitar is easily refretted it has also become a leading instrument in the exploration of the relatively new musical language of microtonality In this revised and enlarged edition from the original work of three decades ago Schneider adds a broad ranging entirely new chapter on the instruments notation and repertoire with insights into the interpretation of historical works through the application of accurate contemporary tunings and temperaments The guitar s unique timbre its tone color is one of the most versatile among modern instruments both acoustic and electric Most players who intuitively explore the subtleties of tone color will find outlined in The Contemporary Guitar the specific principles of physics that determine these subtleties which once mastered permit guitarists to control more completely the expressive palette of their instrument Designated the Rational Method of Tone Production by its author Schneider defines in great detail the timbral characteristics of acoustic and electric instruments from theoretical physical and musical viewpoints Players in search of new repertoire will find an historical survey of the literature an exhaustive list of new music and a multitude of techniques for bringing such music to life The Contemporary Guitar provides audio examples online for those seeking to discover new sounds and includes the notation to perform them **National Union Catalog** ,1983 Roger Smalley: A Case Study of Late Twentieth-Century Composition Christopher Mark,2016-04-08 How does one go about writing the history of musical composition in the late twentieth century when on the one hand so much of it seems impossibly fractured and disassociated and on the other there has been so little certainty about what the notion of music history might entail under the critiques of post modernism One of the most productive ways forward is to pursue case studies involving single composers whose music reflects several aspects of recent activity This enables the discussion of broad issues in a relatively focussed way whilst avoiding the pitfalls of traditional narrative histories and the centrifugal tendencies of the relativistic approach that some have called for The music of the English born 1943 and Australia domiciled composer Roger Smalley is ideal material for such a study because of his involvement with and response to an unusually large number of the myriad concerns

and practices of post 1950s composition including post serial constructivism parody electro acoustic composition and the electronic modification of conventionally produced sound Moment Form aleatorism minimalism the use of non Western resources Aboriginal and South East Asian sonorities neo Romanticism and arguably the new classicism as well as a brief flirtation with rock music in the late 60s Employing an interview with the composer as a kind of cantus firmus the book the first extended single author study of Smalley s music to be published incorporates critical commentary on the composer s major works in a chronological narrative that engages with broad issues of central relevance to Smalley s generation such as the process of learning the craft of composition in the early 60s the motivation behind the adoption of certain technical and aesthetic positions the effects on technical and aesthetic orientation of both the changing relationships between composer performer and audience and technological change and the distinction betwe Catalog of Copyright Entries, Third Series ,1967 The record of each copyright registration listed in the Catalog includes a description of the work copyrighted and data relating to the copyright claim the name of the copyright claimant as given in the application for registration the copyright date the copyright registration number etc Remarkable Occurrences National Library of Australia,2001
