Pineapple A Global History:

Pineapple Kaori O'Connor, 2013-09-15 Poet Charles Lamb described the pineapple as too ravishing for moral taste like lovers kisses she bites she is a pleasure bordering on pain from fierceness and insanity of her relish From the moment Christopher Columbus discovered it on a Caribbean island in 1493 the pineapple has seduced the world becoming an object of passion and desire Beloved by George Washington a favorite of kings and aristocrats the pineapple quickly achieved an elite status among fruits that it retains today Kaori O Connor tells the story of this culinary romance in Pineapple an intriguing history of this luscious fruit O Connor follows the pineapple across time and cultures exploring how it was first transported to Europe where it could only be grown at great expense in hothouses The pineapple was the ultimate status symbol she reveals London society hostesses would even pay extravagantly to rent a pineapple for a single evening to be the centerpiece of a party O Connor explains that the fruit remained a seasonal luxury for the rich until developments in shipping and refrigeration allowed it to be brought to the major markets in Europe and America and she illustrates how canning processes and the discovery of the pineapple s ideal home in Hawaii have made it available and affordable throughout the year Packed with vivid illustrations and irresistible recipes from around the world Pineapple will have everyone falling in love with this juicy tropical fruit

On Savage Shores Caroline Dodds Pennock, 2024-10-15 AN ECONOMIST AND SMITHSONIAN BEST BOOK OF THE YEAR A landmark work of narrative history that shatters our previous Eurocentric understanding of the Age of Discovery by telling the story of the Indigenous Americans who journeyed across the Atlantic to Europe after 1492 We have long been taught to presume that modern global history began when the Old World encountered the New when Christopher Columbus discovered America in 1492 But as Caroline Dodds Pennock conclusively shows in this groundbreaking book for

tens of thousands of Aztecs Maya Totonacs Inuit and others enslaved people diplomats explorers servants traders the reverse was true they discovered Europe For them Europe comprised savage shores a land of riches and marvels yet perplexing for its brutal disparities of wealth and quality of life and its baffling beliefs The story of these Indigenous Americans abroad is a story of abduction loss cultural appropriation and as they saw it of apocalypse a story that has largely been absent from our collective imagination of the times From the Brazilian king who met Henry VIII to the Aztecs who mocked up human sacrifice at the court of Charles V from the Inuk baby who was put on show in a London pub to the mestizo children of Spaniards who returned home with their fathers from the Inuit who harpooned ducks on the Avon river to the many servants employed by Europeans of every rank here are a people who were rendered exotic demeaned and marginalized but whose worldviews and cultures had a profound impact on European civilization Drawing on their surviving literature and poetry and subtly layering European eyewitness accounts against the grain Pennock gives us a sweeping account of the Indigenous American presence in and impact on early modern Europe

The Unnatural Trade Brycchan Carey, 2024-08-27 A look at the origins of British abolitionism as a problem of eighteenth century science as well as one of economics and humanitarian sensibilities How did late eighteenth century British abolitionists come to view the slave trade and British colonial slavery as unnatural a dread perversion of nature Focusing on slavery in the Americas and the Caribbean

in particular alongside travelers accounts of West Africa Brycchan Carey shows that before the mid eighteenth century natural histories were a primary source of information about slavery for British and colonial readers These natural histories were often ambivalent toward slavery but they increasingly adopted a proslavery stance to accommodate the needs of planters by representing slavery as a natural phenomenon From the mid eighteenth century abolitionists adapted the natural history form to their own writings and many naturalists became associated with the antislavery movement Carey draws on descriptions of slavery and the slave trade created by naturalists and other travelers with an interest in natural history including Richard Ligon Hans Sloane Griffith Hughes Samuel Martin and James Grainger These environmental writings were used by abolitionists such as Anthony Benezet James Ramsay Thomas Clarkson and Olaudah Equiano to build a compelling case that slavery was unnatural a case that was popularized by abolitionist poets such as Thomas Day Edward Rushton Hannah More and William Cowper
