Postcolonialism and Islam Geoffrey Nash, Kathleen Kerr-Koch, Sarah Hackett, 2013-11-26 With a focus on the areas of theory literature culture society and film this collection of essays examines questions and broadens the applicability of Postcolonialism and Islam from a multifaceted and cross disciplinary perspective Topics covered include the relationship between Postcolonialism and Orientalism theoretical perspectives on Postcolonialism and Islam the position of Islam within postcolonial literature Muslim identity in British and European contexts and the role of Islam in colonial and postcolonial cinema in Egypt and India At a time at which Islam continues to be at the centre of increasingly heated and frenzied political and academic deliberations Postcolonialism and Islam offers a framework around which the debate on Muslims in the modern world can be centred Transgressing geographical disciplinary and theoretical boundaries this book is an invaluable resource

for students of Islamic Studies Cultural Studies Sociology and Literature Einführung in die Postkolonialismus-Forschung
Wolfgang Streit, 2015-01-02 Die Postkolonialismus Forschung ist heute insbesondere in den Geisteswissenschaften einer der dynamischsten Forschungsbereiche überhaupt aber alles andere als leicht zugänglich Mit diesem Einführungsband bringt Streit interessierten Studierenden die zentralen theoretischen Inhalte und Methoden leicht verständlich nahe Die Einleitung bietet einen Überblick zu Forschungspositionen zu relevanten Regionen und zur Geschichte der Forschungsrichtung Daran schließen sich Erklärungen und theoretische Einordnungen der Grundlagentexte des Dreigestirns der Forschungsrichtung an von Edward Said Gayatri Spivak und Homi Bhabha Drei praktische Studien zu Daniel Defoes Roman Robinson Crusoe zu Franz Kafkas Novelle In der Strafkolonie sowie zu dem Film Apocalypse Now Redux motivieren zum Sprung von der einführenden Lektüre zur eigenen Forschung Abschließend ermöglichen ein begriffserklärendes Glossar ein teilweise kommentiertes Literaturverzeichnis und ein Namensregister die sichere Orientierung Vier Lesermeinungen Wer nach dem Lesen dieses Bandes keine Lust auf mehr bekommt dem ist nicht zu helfen Mich hat er dazu gebracht endlich einmal die Originaltexte anzusehen Ein wirklicher Motivationsband Mir war die Forschungsrichtung bisher ein Buch mit sieben Siegeln Auch andere Einführungen schrecken oft ab Aber diese Darstellung ist mit viel common sense geschrieben Immer wieder behält man durch Wiederholungen den roten Faden im Auge Das Glossar und das Namensregister sind toll zur Orientierung im Buch Anspruchsvoll wird es nur an Stellen die auch wirklich komplizierter sind z.B. bei den Beispielsanalysen Kritisch anzumerken ist aber dass die recht nützlichen Zusammenfassungen der drei Beispielsanalysen in Englisch sind Ich meine das müsste in einem durchgängig deutschen Buch nicht sein Vor allem die Einführungen zu den Theoretikern sind sehr gut verständlich und ordnen die Ansätze in die Literaturwissenschaft ein Das gilt besonders für Bhabha bei dem man ohne eine solche Hilfestellung aufgeschmissen ist Dabei ist Streit immer wieder knackig in der Kritik aber immer fair Er kommt nie besserwisserisch daher Inspiriert und inspirierend für einen Einführungsband Besonders bei den Ausführungen zum Unheimlichen und Machiavelli als Theoretiker setzt Streit Schwerpunkte die sonst nirgendwo so zu finden sind Absoluter Highlight Die Beispielsanalyse zu Apocalypse Now Redux The Perils of the One Stathis Gourgouris, 2019-07-30 From the earliest times societies have been seduced by the temptation of unitary thinking Recognizing the vulnerability of existence people and cultures privilege regimes that confer authority on a single entity a sovereign ruler a transcendental deity or an Event which they embrace with unquestioned devotion Such obsessions precipitate contempt for the worldliness of real bodies in real time and refusal of responsibility and agency In The Perils of the One Stathis Gourgouris offers a philosophical anthropology that confronts the legacy of monarchical thinking the desire to subjugate oneself to unitary principles and structures whether political moral theological or secular In wide ranging essays that are at once poetic and polemical intellectual and passionate Gourgouris reads across politics and theology literary and art criticism psychoanalysis and feminism in a critique of both political theology and the metaphysics of secularism He engages with a range of figures from the Apostle Paul and Trinitarian

Counterpoint Kristine Suna-Koro,2017-05-01 What does postcoloniality have to do with sacramentality How do diasporic lives and imaginaries shape the course of postcolonial sacramental theology Neither postcolonial theorists nor sacramental theologians have hitherto sought to engage in a sustained dialogue with one another In this trailblazing volume Kristine Suna-Koro brings postcolonialism diaspora discourse and Christian sacramental theology into a mutually critical and constructive transdisciplinary conversation Dialoguing with thinkers as diverse as Edward Said and Gayatri Spivak as well as Francis D Sa S J Martin Luther Mayra Rivera and John Chryssavgis the author offers a postcolonial retrieval of sacramentality through a

robust theological engagement with the postcolonial notions of hybridity contrapuntality planetarity and Third Space While exploring the methodological potential of diasporic imaginary in theology this innovative book advances the notion of sacramental pluriverse and of Christ as its paradigmatic crescendo within the sacramental economy of creation and redemptive transformation In the context of ecological degradation In Counterpoint argues that it is vital for the postcolonial sacramental renewal to be rooted in ethics as a uniquely postcolonial fundamental theology Sociology in the Twenty-First Century Simon Susen, 2020-10-17 This book examines key trends debates and challenges in twenty first century sociology To this end it focuses on significant issues surrounding the nature of sociology What is sociology the history of sociology How has sociology evolved and the study of sociology How can or should we make sense of sociology These issues have been and will continue to be essential to the creation of conceptually informed methodologically rigorous and empirically substantiated research programmes in the discipline Over the past years however there have been numerous disputes and controversies concerning the future of sociology Particularly important in this respect are recent and ongoing discussions on the possibilities of developing new and arguably post classical forms of sociology The central assumption underlying most of these projects is the contention that a comprehensive analysis of the principal challenges faced by global society requires the construction of a sociology capable of accounting for the interconnectedness of social actors and social structures across time and space This book provides a cutting edge overview of crucial past present and possible future trends debates and challenges shaping the pursuit of sociological inquiry Simon Susen one of the most knowledgeable scholars in the contemporary social sciences examines the key challenges with which sociology is confronted today This book is a must read for professional sociologists as well as for those studying the subject Luc Boltanski cole des Hautes tudes en Sciences Sociales Paris France Simon Susen provides a balanced update on sociology s theoretical methodological and institutional resources as well as challenges in today s complicated local and global social worlds Fortunately he has innovative and practical recommendations for ensuring the cutting edge relevance of sociological thinking This book is an excellent choice for undergraduate and postgraduate students as well as for the general reader Sandra Harding University of California Los Angeles USA A comprehensive and judicious account of the intellectual and material state of sociology based on omnivorous reading and incisive analysis The writing is beautifully clear and the book is a major contribution to the self understanding of the discipline William Outhwaite Newcastle University UK Emerging Trends in Continental Philosophy Todd May, 2014-09-11 Emerging Trends in Continental Philosophy presents a comprehensive and accessible analysis of the most recent developments in European thought From feminist thought to environmental philosophy to analytic themes in Continental philosophy to recent discussions of citizenship Emerging Trends offers an overview of the currents animating contemporary Continental philosophy The volume focuses on thematic developments rather than individual figures allowing the reader to follow the threads that weave different thinkers together Each essay is written by an expert in the area covered

displaying the passion of these experts for the fields they discuss without lapsing into jargon The volume provides a broad map of the landscape of recent European thought as well as the latest thinking from leading scholars on key themes

Overlapping Territories Bambang Sugiharto, Roy Voragen, 2011-05-25 The post Cold War situation has given way to a new and unprecedented constellation of global interrelations The power constellation today is not only multi polar but rather chaotic its configuration keeps shifting and it is determined not simply by new emerging super powers but also by any seemingly small events in non linear modes of interaction The interdependency between communities somehow makes significant changes unpredictable Such an interdependent yet chaotic world order in turn raises new philosophical questions Identity culture and civilization cannot be understood anymore simply in terms of traditional categories These categories are called into question through mutual interrogation and mutual enlargement of horizons and this inevitably entails hybridization and pluralization The Asian voices included in this book speak of recognition of and respect for the otherness the other outside as well as inside The writers mostly see globalization as well as their own cultural positions through dialogical imagination in which a Western philosophical framework is deployed to find out their Asian positions and the reverse the Asian reality is used to problematize the Western framework Thereby this book attempts to shed light on the question of how we are to understand culture and civilization

Mapping Exile and Return Alain Epp Weaver, 2014-01-01 One of the most persistent if vexing issues facing not just theology but also political theory sociology and other disciplines is the ongoing Palestinian Israeli conflict For theology the problem is especially nettlesome on account of the church's shared history and tradition with the Jewish people Palestinians including Palestinian Christians bear the brunt of suffering and dispossession in the current situation yet are burdened even more by Christian political appropriation of Zionism Through an analysis of Palestinian refugee mapping practices for returning to their homeland Alain Epp Weaver takes up the troubled issue of Palestinian dispossession and argues against the political theology embedded in Zionist cartographic practices that refuse and seek to eliminate evidence of co existence Instead Alain Epp Weaver offers a political theology of redrawing the territory compatible with a bi national vision for a shared Palestinian Israeli future

Debating Orientalism Anna Bernard, David Attwell, 2013-06-13 Edward Said continues to fascinate and stir controversy nowhere more than with his classic work *Orientalism* *Debating Orientalism* brings a rare mix of perspectives to an ongoing polemic Contributors from a range of disciplines take stock of the book's impact and appraise its significance in contemporary cultural politics and philosophy

Intellectual Resistance and the Struggle for Palestine M. Abraham, 2014-08-07 By positioning the late Edward Said's political interventions as a public intellectual on behalf of Palestinian populations living under Israeli occupation as a form of intellectual resistance Abraham moves to consider forms of physical resistance seeking to better understand the motivations of those who choose to turn their bodies into weapons

Ireland and Ecocriticism Eóin Flannery, 2015-10-05 This book is the first truly interdisciplinary intervention into the burgeoning field of Irish ecological criticism Providing

original and nuanced readings of Irish cultural texts and personalities in terms of contemporary ecological criticism Flannery's readings of Irish literary fiction poetry travel writing non fiction and essay writing are ground breaking in their depth and scope Explorations of figures and texts from Irish cultural and political history including John McGahern Derek Mahon Roger Casement and Tim Robinson among many others enable and invigorate the discipline of Irish cultural studies and international ecocriticism on the whole This book addresses the need to impress the urgency of lateral ecological awareness and responsibility among Irish cultural and political commentators to highlight continuities and disparities between Irish ecological thought writing and praxis and those of differential international writers critics and activists and to establish both the singularity and contiguity of Irish ecological criticism to the wider international field of ecological criticism With the introduction of concepts such as ecocosmopolitanism deep history ethics of proximity Gaia Theory urban ecology and postcolonial environmentalism to Irish cultural studies it takes Irish cultural studies in bracing new directions Flannery furnishes working examples of the necessary interdisciplinarity of ecological criticism and impresses the relevance of the Irish context to the broader debates within international ecological criticism Crucially the volume imports ecological critical paradigms into the field of Irish studies and demonstrates the value of such conceptual dialogue for the future of Irish cultural and political criticism This pioneering intervention exhibits the complexity of different Irish cultural and historical responses to ecological exploitation degradation and social justice
