**Prostitution in the Community** Sarah Kingston, 2013-10-15 Prostitution often causes significant anxiety for communities. These communities have been known to campaign against its presence in their neighbourhoods seeking the removal of street sex workers and their male clients. Although research and literature has begun to explore prostitution from the standpoint of the community, there is no comprehensive text which brings together some of the current literature in this area. This book aspires to cast light on some of this work by exploring the nature, extent and visibility of prostitution in residential communities and business areas, considering the legal and social context in which it is situated and the community responses of those who live and work in areas of sex work. This book aims to examine current literature on the impacts of prostitution in residential areas and considers how different policy approaches employed by the police and local authorities have mediated and shaped the nature of sex work in different communities. It explores what communities think about prostitution and those involved as well as studies the techniques and strategies communities have utilized to take action against prostitution in their neighbourhoods. This book will also demonstrate the diversity of public attitudes, action and reaction to prostitution in the community. This book is a useful contribution for academics and researchers in the fields of Criminology and Sociology who wish to understand current policy initiatives surrounding the issue of prostitution in local, national and international community settings.

**Paris to Pamirs** Jaroslaw Martyniuk, 2024-05-22 *Paris to Pamirs* Eurasian Odysseys is a sequel to *Monte Rosa: Memoir of an Accidental Spy*, a volume that documented the author's life from WWII to his years in Paris where he worked for the IEA, OECD and later as an undercover researcher for Radio Liberty. The fall of Communism in 1991 opened opportunities for travel east of the defunct Iron Curtain. Over the next three decades, Jaroslaw Martyniuk traveled to forty countries between the Atlantic Ocean and the high Pamir mountains in Tajikistan which border China and Afghanistan in Central Asia. Like a latter-day Marco Polo, Martyniuk takes his reader on an adventure from Western and Eastern Europe, the Balkans, Baltics, Belarus, Ukraine and Russia to Istanbul, the Caucasus and Central Asia.

*The Christians, Their First Two Thousand Years*, 2002 *The Christians* is the history of Christianity told chronologically, epoch by epoch, century by century, beginning at Pentecost and concluding with Christians as we find ourselves in the twenty-first century. It will consist of approximately twelve volumes produced over a 10-year period at the beginning of the third Christian millennium. It is written and edited by Christians for Christians of all denominations. Its purpose is to tell the story of the Christian family so that we may be knowledgeable of our origins, may well know and wisely profit from the experiences of our past, both good and bad, and may find strength and inspiration to face the challenges of our era from the magnificent examples set for us by those who went before. *A History of the Hussite Revolution* Howard Kaminsky, 2004-04-08 The religious reformation in fifteenth-century Bohemia was also a social, political and cultural revolution, the first of the great upheavals that transformed the medieval into the modern world. Beginning with a revival of

evangelical pietism among the people of Prague then coming under the leadership of the Czech intelligentsia of Prague's university the reform movement reached its highest point under Master John Hus who fused the fervor of pietism with the systematic political program developed by the English reformer John Wyclif When Hus passed from the scene by submitting himself to the Council of Constance leadership of the movement was taken up by the more radical Jakoubek of Stribro pioneer of what was to become Hussitism's most characteristic practice lay communion in both kinds utraquism At the same time the propagation of the reform by Jakoubek's disciples among the townsmen and peasantry of the realm balanced the more conservative tendencies of the university masters and the Hussite feudality by 1417 the Hussite movement was an uneasy coalition of religious political tendencies ranging from extreme conservatism to Waldensian sectarianism Out of the interplay among the Hussite parties and their various reactions to the pressures from Pope and Emperor there emerged two main types of reformation one centered in Prague the other in Tabor Both were condemned by the Roman church but the movement in Prague less extreme never ceased to hope for a reversal of that decision Tabor on the other hand went all the way to heresy schism and revolution ending with the form of the autonomous congregational community organized as a city state in de facto secession from the medieval order Religious reformism sectarian heresy of every sort national passions class hatreds laicization and anticlericalism all the disturbing factors at work in late medieval Europe came together in the Hussite revolution which provided examples of virtually every form of change with which Europe would be concerned for the next three centuries

The Magnificent Ride Thomas A. Fudge, 2018-03-29 The Magnificent Ride examines the social and religious dimensions of the Hussite revolutionary movement in 15th century Bohemia It argues that the magnificent ride was in fact the first reformation and not merely a precursor to the reformations of the 16th century The religious revival which had begun in Prague in the later middle ages reached its zenith in the period between Jan Hus and the Council of Basel This book reconstructs the Hussite myth and shows how that myth evolved into the historical phenomenon of heresy Acts of heretical practice in Bohemia condemnation of Jan Hus defiance of ecclesiastical authority and attempts by the official church to deal with the dissenters are fascinating chapters in the history of late medieval Europe

*George Eliot's 'The Lifted Veil'* Franco Marucci, 2022-01-31 The negative historical judgment given to George Eliot's *The Lifted Veil* amounts nowadays to a gross critical blunder and in the last three decades the story has been firmly reinstated in Eliot's major canon The premise of the present book is that George Eliot's oeuvre is a compact macrotext where themes motifs patterns and cultural and personal archetypes recur with variations and that *The Lifted Veil* functions as the linchpin of this oeuvre A sequential approach to the story is authorized by the use of a mimetic enunciation that simulates a gradual definition of events places and characters as they have appeared to the narrating I in the course of time until the moment of the enunciation Contextualizing *The Lifted Veil* means placing it within Eliot's oeuvre and against the background of Victorian mid century fiction in a further meaning seeing it as intersecting various contemporary genres and subgenres such as that of

the European and American literature of the veil that of the archetypal icon of the femme fatale that of Wilkie Collins's dead secret novels The most significant facet that critical literature on *The Lifted Veil* has tended to overlook is however the encrypting of the experience of a failed religious conversion and the foreshadowing of the search for a spiritual and racial identity of Daniel Deronda the hero of Eliot's final novel
