Project management interview questions and answers are tough. The interviewer wants to catch you off guard to make sure you can answer questions honestly and quickly. For this reason, we've compiled a list of sample questions to help you preparing for a project manager [interview questions and answers](#).

Q: Tell me a bit about your experience.

A: I've been working in program development for about six years.

The interviewer wants to see that you have some sort of experience in the field you're looking to manage. The inexperienced rarely become project managers, because project managers need to have what it takes to get a project done.

Q: Describe the perfect project manager.

A: Capable, determined, and a good leader.

This question looks at your values.

Q: How do you handle teams with a lot of strong personalities?

A: As with all leadership positions, one of the important things to keep in mind is delegation. I kept track of everything while delegating in a way that kept the strongest personalities from clashing.

The interviewer wants to see how you deal with conflict.

Q: What's the first thing you do when faced with a new project.

A: Define the goal.

The interviewer wants to see where your priorities lie.

Q: Do you think this position is going to be challenging?
