Retsinas, Eric S. Belsky, 2004-05-28 A Brookings Institution Press and Harvard University Joint Center for Housing Studies publication A generation ago little attention was focused on low income homeownership Today homeownership rates among underserved groups including low income households and minorities have risen to record levels These groups are no longer at the margin of the housing market they have benefited from more flexible underwriting standards and greater access to credit However there is still a racial ethnic gap and the homeownership rates of minority and low income households are still well below the national average This volume gathers the observations of housing experts on low income homeownership and its effects on households and communities The book is divided into five chapters which focus on the following subjects homeownership trends in the 1990s overcoming borrower constraints financial returns to low income homeowners low income loan performance and the socioeconomic impact of homeownership **How the Suburbs Were Segregated** Paige Glotzer, 2020-04-28 The story of the rise of the segregated suburb often begins during the New Deal and the Second World War when sweeping federal policies hollowed out cities pushed rapid suburbanization and created a white homeowner class intent on defending racial barriers Paige Glotzer offers a new understanding of the deeper roots of suburban segregation The mid twentieth century policies that favored exclusionary housing were not simply the inevitable result of popular and elite prejudice she reveals but the culmination of a long term effort by developers to use racism to structure suburban real estate markets Glotzer charts how the real estate industry shaped residential segregation from the emergence of large scale suburban development in the 1890s to the postwar housing boom Focusing on the Roland Park Company as it developed Baltimore's wealthiest whitest neighborhoods she follows the money that financed early segregated suburbs including the role of transnational capital mostly British in the U.S. housing market She also scrutinizes the business practices of real estate developers from vetting homebuyers to negotiating with municipal governments for services She examines how they sold the idea of the suburbs to consumers and analyzes their influence in shaping local and federal housing policies Glotzer then details how Baltimore's experience informed the creation of a national real estate industry with professional

organizations that lobbied for planned segregated suburbs How the Suburbs Were Segregated sheds new light on the power of real estate developers in shaping the origins and mechanisms of a housing market in which racial exclusion and profit are still inextricably intertwined **Hearings, Reports and Prints of the Senate Committee on the Judiciary** United States.
